## ANNUAL REPRESENTATIVE TOWN MEETING

### March 13, 1930

Pursuant to the Warrant of the Selectmen served according to law upon the inhabitants of the Town of Winchester by William R. McIntosh, Constable of said Town, notices having been sent by mail by the Town Clerk seven days before the day of meeting of the Town Meeting Members elected and qualified to act in Town Meetings in Winchester, the Town Meeting Members met in the Town Hall in said Town on Thursday, March 13, 1930, at 7.45 o'clock in the evening.

A list of the duly qualified Town Meeting Members was used at the entrance to the meeting place and was in charge of Alfred E. Sweet and Dwight D. Elliott, Election Officers. The list contained the names of two hundred and thirty Town Meeting Members qualified to participate and vote in Town Meetings in Winchester.

The Check list filed with the Town Clerk at the close of the meeting showed that one hundred and ninety-nine (199) members attended the meeting.

The meeting was called to order by the Moderator, George B. Hayward, at 7.53 o'clock P.M.

Copies of the Warrant having been mailed to each of the Town Meeting Members, the Moderator read only the Call of the Meeting and the Constable's Return of the Warrant, the meeting voting to dispense with the reading of the Articles in the Warrant.

Mr. George B. Hayward was sworn in as Moderator by the Town Clerk, Mabel W. Stinson.

The following persons were sworn in by the Moderator to the following positions:

| Nathaniel M. Nichols | Collector of Taxes |
| Clarence P. Whorf | Water and Sewer Board |
| William H. Bowe | Cemetery Commissioner |
| Richard Parkhurst | Board of Health |

The Assessor's Oath of Office was administered by the Moderator to Harry T. Winn.

**Article 1.** To hear and act upon reports of the Town Officers and the Finance Committee.

**Voted,** That the reports of the Town Officers, and the report of the Finance Committee, as printed, be received and placed on file.

**Article 2.**To see if the meeting will adopt any rule or rules for the conduct of the meeting.

**Voted,** That Article 2 be laid on the table.

**Article 3.** To raise money by taxation to meet the payment of town bonds and notes becoming due in the current financial year.

**Voted,** That the sum of Seventy-nine Thousand Two Hundred and Four Dollars and Seventy Cents ($79,204.70) be appropriated to pay bonds and notes of the Town becoming due in the year nineteen hundred and thirty, and that said amount be raised by transferring the same from Excess and Deficiency Account.

**Article 4.** To raise and appropriate money to defray certain expenses incurred by the Collector of Taxes in the year 1929 and to meet departmental overdrafts made and authorized by the Selectmen in the year 1929 under the provisions of section 31 of chapter 44 of the General Laws.

**Voted,** That the sum of fifty (50) dollars be appropriated to meet certain expenses of the Town incurred by the Collector of Taxes in the year 1929.

**Voted,** That the sum of two thousand six hundred sixty-five dollars and ninety-seven cents ($2665.97) be appropriated to meet the overdraft of that amount made in the year 1929 upon the Department of Public Welfare Account by authority of the Selectmen, under the provisions of Section 31 of Chapter 44 of the General Laws.

**Voted,** That when we adjourn adjournment be to Thursday, March 20, 1930, at 7.45 o'clock P.M.

The foregoing officers were sworn to the faithful performance of their duties.

The necessary ballots prepared for each Precinct and all other paraphernalia for the proper conduct of the election was supplied by the Town Clerk and turned over to the Wardens of the various Precincts.

The polls were declared open in each precinct at 6.30 o'clock

A.M. and remained open until six o'clock P.M., at which time, after due notice/they were declared closed.

The ballots were counted by the Election Officers in each precinct, the tally sheets and total vote sheets prepared by the Town Clerk being used, and the result of the same was declared in the respective precincts.

The ballots cast, after being counted, were enclosed in envelopes, sealed and encased in leatheroid cases which were strapped up and sealed with the precinct seal, and the same were delivered to the Registrars of Voters in the Town Clerk's Office.

The Town Clerk and Registrars of Voters, upon receipt of the returns from the several precincts, forthwith canvassed the same and announced the results.

## SPECIAL TOWN MEETING

### May 26, 1930

Pursuant to the Warrant of the Selectmen served according to law upon the inhabitants of the Town of Winchester by Edward F. Maguire, Constable of said Town, notices having been sent by the Town Clerk seven days before the day of the meeting to the Town Meeting Members elected and qualified to act in Town Meetings in Winchester, the Town Meeting Members met in the Town Hall in said Town on Monday, May 26, 1930, at 7.45 o'clock in the evening.

A List of the duly qualified Town Meeting Members was used at the entrance to the meeting place and was in charge of Alfred E. Sweet and Dwight D. Elliott, Election Officers, who had been duly sworn in as Election Officers by the Town Clerk, prior to the meeting. The list contained the names of two hundred and thirty-one Town Meeting Members qualified to participate and vote in Town Meetings in Winchester.

The Check List filed with the Town Clerk at the close of the meeting showed that Two Hundred and Four Members attended the meeting.

The meeting was called to order by the Moderator, George B. Hayward, at 7.52 o'clock P.M.

The Moderator read the Warrant and the Constable's Return of the Warrant, omitting the reading of the Articles in the Warrant, which it was voted need not be read.

Copies of the Warrant were mailed to each of the Members by the Town Clerk seven days before the day of the meeting.

The following persons were appointed as Tellers and were duly sworn by the Moderator:

| | |
|---|---|
| George F. Arnold | James W. Russell |
| Theodore Price Wilson | Arthur A. Kidder |

The Moderator spoke of the death on the morning of May 26, 1930 of the Chief of Police, William R. McIntosh, and all assembled stood in respect to the memory of said Chief, and, after a moment of silence, and while all were still standing, the following resolutions adopted by the Board of Selectmen at their meeting previous to the Town Meeting were read by Mr. Vincent P. Clarke, Selectman:

## RESOLUTIONS
## IN MEMORY OF WILLIAM R. McINTOSH

The Town of Winchester has lost one of its most beloved, efficient and loyal public servants in the death of its Chief of Police, William R. McIntosh, who passed away early this morning, May 26, 1930.

He was appointed Chief on October 1, 1897 and served continuously since that time. He was a wise administrator and although most economical in the spending of the Town's money, yet ever maintained his department at a high degree of efficiency, no breath of scandal or suspicion ever having been directed against it.

His ability as a prosecutor and cross-examiner was held in high esteem by the judges and attorneys with whom he came in contact.

His primary purpose at all times was to see that justice prevailed.

He was always loyal to the Town, hard working and untiring in his efforts. His advice and counsel was most valuable. He would seldom take a vacation for fear that he might be needed. His work was continually foremost with him even through his last sickness.

His manner was quiet and unassuming and yet there was a strength of character about him that made itself felt. He was a true gentleman, courteous and thoughtful of others, and greatly beloved by his men and all those with whom he came in contact.

Although he has passed on to the Great Beyond, his influence will still be felt in Winchester, not only by his successor in office, and by his loyal men, but by the Town as a whole.

**Article 1.** To raise and appropriate a sum of money, in addition to the sum heretofore appropriated, for election and registration expenses.

**Voted,** That the sum of Eight Hundred Dollars ($800.00) be appropriated, in addition to the amount heretofore appropriated, for election and registration expenses, to be expended under the direction of the Selectmen.

**Voted,** That the five minute rule for speaking at one time shall be enforced, but on motion from the floor additional five minutes or longer may be granted, unless otherwise voted.

**Article 2.** To see if the town will amend section 147 of the Building Laws so as to reduce the distance from lot lines, private ways and / or other buildings within which two family and group houses and apartment houses and residence buildings of three or more stories in height intended for the occupancy of more than two families may be located, if such buildings or such parts thereof as are within the distances now prescribed by said section are constructed of brick, concrete or equally substantial or non-combustible material, or conditions exist which will prevent the erection or alteration of other buildings within the distance now prescribed by said section as now in force or as it may be amended.

**Article 3.** To see if the town will amend Section 209 of Division 30 of the Building Laws, relating to gas fitting, by striking out the words "Inspector of Plumbing" in the second sentence and inserting in place thereof, the words "Building Commissioner."

**Article 4.** To see the town will amend Section 220 of Division 30 of the Building Laws, relating to gas fitting, by inserting therein or adding thereto, a provision requiring that every automatic gas water heater, shall be equipped with a suitable and efficient device for the purpose of automatically shutting off the supply of gas to the main burner when the pilot light is extinguished.

**Article 5.** To see if the town will amend section 3 of Division 1 of the Building Laws so as to provide for the annual appointment of the Building Commissioner, an Inspector of Wires and an Inspector of Plumbing.

**Voted,** That the subject matter of Articles 2-3-4-5 be indefinitely postponed.

**Article 6.** To see if the town will authorize the Selectmen to acquire land south of the present High School lot by eminent domain, purchase, or otherwise, for the construction thereon of a secondary school building; construct thereon and / or on said High School lot or partly on each, a school house for secondary school facilities; reconstruct or alter the High School Building and connect the High School building as reconstructed or altered with said new school building; purchase original equipment and furnishings or additional equipment or furnishings for said new building and / or for said High School building as reconstructed or altered; appropriate money for the purposes aforesaid or any of them and determine in what manner the money shall be raised and through whom it shall be expended; authorize the borrowing of money therefor under the provisions of Chapter 279 of the Acts of 1928 and / or under any provisions of the General Laws; or take any action in the premises.

**Moved and Seconded,** That the Selectmen be and hereby are authorized and empowered on behalf of the Town, to take by eminent domain or by purchase or otherwise, for the purpose of erecting a school house thereon, the land in the town bounded:

EASTERLY by Washington Street, about 253 feet;
SOUTHERLY by land of the Town, being the Johnson Plot, so called, about 142 feet;
WESTERLY by Main Street, about 200 feet; and
NORTHERLY by the present High School Lot, about 318 feet;
Containing about 46,942 square feet;

That the Town Treasurer be and is hereby authorized and instructed, with the approval of the Selectmen, to borrow a sum not exceeding one hundred thousand dollars ($100,0000)under authority of Chapter 44 of the General Laws and to issue bonds or notes of the town therefor, to be payable in accordance with the provisions of Section 19 of Chapter 44 of the General Laws, so that the whole loan shall be paid in not more than twenty years from the date of issue of the first bond or note. And that the Town Treasurer be and hereby is authorized and instructed, with the approval of the Selectmen, to borrow a sum not exceeding one hundred and sixty thousand dollars ($160,000) under authority of Chapter 279 of the Acts of 1928 and to issue bonds or notes of the town therefor to be payable, in accordance with the provisions of said chapter, so that the whole loan shall be paid in not more than fifteen years from the date of issue of the first bond or note.

The proceeds of such bonds or notes to the amount of two hundred sixty thousand dollars ($260,000), together with twenty-three thousand seven hundred dollars ($23,700) to be raised by the tax levy of the current financial year, are hereby appropriated as follows:

So much thereof as may be required therefor to be expended by the Selectmen for the purpose of acquiring the land hereby authorized to be taken, and the remainder to be expended by a

Committee, to be appointed for the purpose, for the construction and original equipment and furnishing of a school house on said land and the present High School lot.

**Vote:** Yes, 51. No, 138.

**Article 7.** To see if the town will discontinue all or any part of the street running between Washington Street and Main Street adjacent to the Johnson Plot.

**Voted,** That consideration of Article 7 be indefinitely postponed.

**Voted,** That consideration of Article 8 be deferred until after action has been taken on Article 9.

**Article 9.** To see if the town will construct a schoolhouse for secondary school facilities; purchase original equipment and furnishings therefor; determine where and when such schoolhouse shall be constructed; authorize the Selectmen to acquire land therefor by eminent domain, purchase or otherwise; appropriate money for the purposes aforesaid or any of them and determine in what manner the money shall be raised and expended; authorize the borrowing of money therefor under the provisions of Chapter 279 of the Acts of 1928 and / or under any provisions of the General Laws; or take any action in the premises.

**Voted,** That the Selectmen be and hereby are authorized and empowered, on behalf of the town, to take by eminent domain or by purchase, or otherwise for the purpose of erecting a school house thereon, the land in the town, described as follows:

(A) Four lots now or formerly of Raymond M. Adams, Nora T. McCarthy, the First Congregational Society, and Ida Ripley, bounded together substantially as follows:

EASTERLY by Main Street, about 456.80 feet;
SOUTHERLY by land now or formerly of Ellen R. Hodges and Catherine E. Pierce, about 183.79 feet;
WESTERLY by land of the Commonwealth of Massachusetts, about 309.55 feet, and
NORTHERLY by land now or formerly of the Unitarian Society, about 233.90 feet;
Containing approximately 86,298 square feet;

(B) Land heretofore taken by the Commonwealth of Massachusetts, by its Metropolitan Park Commission, bounded:

EASTERLY by land of the Unitarian Society, the four lots herein first described, land of Gorman and the end of Warwick Place, about 543.88 feet;

SOUTHERLY by land now or formerly of Cora M. Morgan, about 70 feet;

SOUTHEASTERLY by land of Eugenia Parker, about 312.50 feet;

SOUTHERLY by other land of said Eugenia Parker, about 8.34 feet;

WESTERLY by a line parallel with and 35 feet distant Easterly from the Easterly exterior line of the Mystic Valley Parkway about 687 feet:

Containing approximately 82,000 square feet;

(C) A triangular lot of land now or formerly of Eugenia Parker, bounded:

EASTERLY by land now or formerly of Cora M. Morgan, and other land of the said Eugenia Parker, about 265 feet;

SOUTHERLY by other land of said Eugenia Parker, about 167 feet, and

NORTHERLY by land of the Commonwealth of Massachusetts, hereinbefore described, about 312.50 feet,

Containing approcimately 22,200 square feet.

That the Town Treasurer be and is hereby authorized and instructed, with the approval of the Selectmen, to borrow a sum not exceeding one hundred thousand dollars ($100,000) under authority of Chapter 44 of the General Laws and to issue bonds or notes of the town therefor, to be payable in accordance with the provisions of Section 19 of Chapter 44 of the General Laws, so that the whole loan shall be paid in not more than twenty years from the date of issue of the first bond or note. And that the Town Treasurer be and hereby is authorized and instructed, with the approval of the Selectmen, to borrow a sum not exceeding two hundred fifty thousand dollars ($250,000) under authority of Chapter 279 of the Acts of 1928 and to issue bonds or notes of the town therefor to be payable, in accordance with the provisions of said chapter, so that the whole loan shall be paid in not more than fifteen years from the date of issue of the first bond or note.

The proceeds of such bonds or notes to the amount of three hundred fifty thousand dollars ($350,000), together with forty thousand dollars ($40,000) to be raised by the tax levy of the current financial year, are hereby appropriated as follows.

So much thereof as may be required therefor to be expended by the Selectmen for the purpose of acquiring the land hereby authorized to be taken, and the remainder to be expended by a Committee, to be appointed for the purpose, for the construction and original equipment and furnishings of a school house to be erected on said land.

**Vote:** Yes, 149. No, 39.

**Voted,** That a committee is hereby established to be known as the Junior High School Building Committee, and hereinafter called "the Committee", to consist of five citizens, qualified voters of the town, one of whom shall be a member of the School Committee chosen by it, the others to be appointed by the Moderator.

No member of the Committee shall have any financial interest, directly or indirectly in the work hereby committed to it, or in any contract relating thereto.

If the member chosen by the School Committee shall cease to be a member of the School Committee, he shall cease to be a member of "the Committee". If a vacancy thus occurs, or if from any other cause the School Committee member shall cease to be a member of "the Committee", the vacancy shall be filled by choice of the School Committee. Other vacancies shall be promptly filled by the remaining members of the Committee.

The Committee is hereby authorized and empowered to procure, determine and approve plans for and to construct, equip and furnish a school house upon the land, the acquisition of which has been authorized at this meeting, for the accommodation of the public school pupils of the seventh, eighth and ninth grades, and for such purpose to expend so much of the money appropriated therefor as may be necessary, and to make and execute, on behalf of the town, all contracts pertaining to the same, and, in so far as it may be lawful and proper, shall provide therein that in the employment of labor thereunder preference shall be given to citizens of Winchester.

The Committee shall keep a record of its proceedings, and on completion of the work under its charge, file a report in writing in the office of the Town Clerk, with a detailed statement of receipts and expenditures in relation thereto.

**Vote:** Yes, 154. No, 21.

**Voted,** That Article 8 be now taken up.

**Article 8.** To see if the town will rescind its action taken at the last annual Town Meeting whereby a committee was established and authorized to construct a schoolhouse.

**Voted,** That the action taken at the last annual town meeting, whereby a committee was established and authorized to construct a school house, be and the same hereby is rescinded.

**Moved and Seconded,** That we now adjourn.
The motion to adjourn was lost.

**Article 10.** To see if the town will make any recommendation to the Selectmen with reference to the granting of a license for a moving picture theatre. (Charles J. Allen and others.)

**Voted,** That consideration of Article 10 be indefinitely postponed.

Robert H. Sullivan and William E. Ramsdell served as Election Officers on the check lists of all voters of the Town at the entrance to the Town Hall.

**Voted,** That the meeting be now dissolved.
Meeting dissolved at 11.58 o'clock P.M.

## SPECIAL TOWN MEETING

### October 23, 1930

Pursuant to the Warrant of the Selectmen served according to law upon the inhabitants of the Town of Winchester by Edward F. Maguire, Constable of said Town, notices having been sent by the Town Clerk seven days before the day of the meeting to the Town Meeting Members elected and qualified to act in Town Meetings in Winchester, the Town Meeting Members met in the Town Hall in said Town on Thursday, October 23, 1930 at 7.45 o'clock in the evening.

A list of the duly qualified Town Meeting Members was used at the entrance to the meeting place and was in charge of Alfred E. Sweet and Dwight D. Elliott, Election Officers, who had been duly sworn in as Election Officers by the Town Clerk, prior to the meeting The list contained the names of two hundred and thirty-two Town Meeting Members qualified to participate and vote in Town Meetings in Winchester.

The Check List filed with the Town Clerk at the close of the meeting showed that one hundred fifty-three Members attended the meeting.

The meeting was called to order by the Moderator, George B. Hayward, at 7.53 o'clock P.M.

The Moderator read the Warrant and the Constable's Return of the Warrant, omitting the reading of the Articles in the Warrant, which it was voted need not be read.

Copies of the Warrant were mailed to each of the Members by the Town Clerk seven days before the day of the meeting.

The following persons were appointed as Tellers and were duly sworn by the Moderator:

| | |
|---|---|
| George S. F. Bartlett | Robert F. Guild |
| J. Harper Blaisdell | James W. Russell |

The following Motion was ruled by the Moderator as in order at this time and was presented by him; and voted;

**Voted,** That the Town Clerk of Winchester, in writing, extend to the Chairman and each of the members of the Tercentenary Committee, the thanks and appreciation of the citizens of Winchester, in Town Meeting assembled, for their splendid services in presentation of the recent Tercentenary observance.

**Article 1.** To raise and appropriate money, in addition to the sums heretofore appropriated, to defray the expenses of the Town for the current financial year, and especially for any of the following purposes, and determine in what manner the money shall be raised and through whom it shall be expended:

Highways and Bridges
Sewer Construction
Sewer Maintenance
Surface Drainage
Water Construction
Water Maintenance

**Voted,** That in addition to the sums heretofore appropriated there be now appropriated the sum of Thirty-one Hundred (3100) Dollars for construction of new sidewalks and reconstruction of existing sidewalks and Thirty-six Hundred (3600) Dollars for the general expenses of the Highway Department incident to the care and maintenance of ways and bridges, all to be expended under the direction of the Selectmen; and that the sum of Sixty-seven Hundred (6700) Dollars be transferred from Excess and Deficiency account to meet said appropriations.

**Voted,** That consideration of Sewer Construction, Sewer Maintenance, Surface Drainage and Water Maintenance be indefinitely postponed.

**Voted,** That the sum of Six Thousand Five Hundred (6500) Dollars be transferred from Excess and Deficiency account and appropriated, in addition to the sum heretofore appropriated, for extension of the water supply system, to be expended under the direction of the Water and Sewer Board.

**Article 2.** To see if the Town will authorize the acquisition, by eminent domain, purchase, or otherwise, of all or any part of that portion of the "Corse Lot", so called, now of Ersilia N. Sylvester, comprising approximately 10,000 square feet and bounded: Westerly by Washington Street, Northerly by land now or formerly of Anna H. Norton, Easterly by the remaining land of which the parcel here described forms a part and Southerly by the Mystic Valley Parkway, for the purpose of a public park or for any other public or municipal purpose; appropriate money therefor; determine in what manner the money shall be raised; or take any action in the premises.

**Moved and Seconded,** That the Board of Park Commissioners as it is now or may hereafter be constituted, be and is hereby authorized to locate a public park within the area hereinafter defined and for that purpose is further authorized and empowered, on behalf of the Town, to take by eminent domain or by purchase, or otherwise that parcel of land within the town containing approximately ten thousand (10,000) feet, bounded substantially as follows:

Westerly by Washington Street, one hundred eight and 10-100 (108.10) feet;

Northerly on land now or formerly of Anna H. Norton, ninety-six and 50-100 (96.50) feet more or less;

Easterly by the remaining portion of the parcel of which the land here described forms a part, being land now or formerly of Ersilia N. Sylvester, one hundred ten (110) feet more or less;

Southerly by the Mystic Valley Parkway, seventy-one and 50-100 (71 50) feet more or less; and

Southeasterly by the intersection of said Mystic Valley Parkway and said Washington Street, in a curving line, sixteen and 2-100 (16.02) feet.

And the sum of ten thousand dollars ($10,000) is hereby transferred from Excess and Deficiency account and appropriated for the aforesaid purpose.

**Vote:** Yes, 23. No, 110.

**Article 3.** To see if the Town will authorize the Selectmen to sell, demolish or otherwise dispose of the dwelling house on the Town Hall lot known as the "Cutting House," now occupied by the American Legion, or take any action in relation thereto.

**Moved and Seconded,** That the Selectmen be and they are hereby authorized to cause the dwelling house known as the "Cutting House" situated on the Town Hall lot and now occupied by the Winchester Post Number 97 of the American Legion, to be removed or demolished and to sell or make such other disposition of the same or the materials thereof as they shall deem to be consistent with the interests of the Town.

**Voted,** That consideration of the motion offered under Article 3 be indefinitely postponed.

**Article 4.** To see if the Town will accept the layout of a Town way extending northerly from a point about two hundred ninety-four (294) feet northerly from the northerly line of Wildwood Street approximately five hundred fifty-four (554) feet, to Dartmouth Street (being the extension of Wedgemere Avenue) as made and reported by the Selectmen, under the provisions of law relating to the assessment of betterments and raise and appropriate money for the construction thereof and for land damages.

**Voted,** That the reading of the report of the Selectmen containing the laying out of an extension of Wedgemere Avenue as a town way, now in the hands of the Moderator, be dispensed with.

The foregoing officers were sworn to the faithful performance of their duties.

The necessary Ballots prepared for each Precinct and all other paraphernalia for the proper conduct of the election was supplied by the Town Clerk and turned over to the Wardens of the various Precincts.

The polls were declared open in each Precinct at 6.30 o'clock A. M. and remained open until six o'clock P. M., at which time, after due notice, they were declared closed.

Just prior to the closing of the polls, the Town Clerk turned over to the Warden of each Precinct the envelopes received by her purporting to contain Absent Voter Ballots, together with the applications filed by said voters for registration as Absent Voters. Immediately after the closing of the polls, the Wardens caused all of the thirty-one (31) envelopes containing Absent Voter Ballots to be opened and signatures, affidavits, postmarks, etc. to be examined in accordance with Section 95, Chapter 54 of the General Laws, and any amendments there may be thereto, and one was rejected in Precinct 3, as the voter died on November 3, 1930, and thirty were found to be correct. The names of these thirty (30) Absent Voters were checked on the voting lists in the proper Precinct and then the thirty (30) Absent Voter Ballots were deposited in the proper Ballot Boxes.

The number of Absent Voter Ballots cast in each Precinct were as follows:

| **Precinct** | 1 | 2 | 3 | 4 | 5 | 6 | **Total** |
|---|---|---|---|---|---|---|---|
| Absent Voter Ballots Cast | 3 | 7 | 8 | 9 | 2 | 1 | 30 |

The Ballots were counted by the Election Officers in each Precinct, the tally sheets and total vote sheets prepared by the Town Clerk being used, and the result of the same was declared in the respective Precincts.

The Ballots cast, after being counted, were enclosed in envelopes, sealed and encased in leatheroid cases which were strapped up and sealed with the Precinct Seal, and the same were delivered to the Town Clerk.

Upon receipt of the returns from the several Precincts, the Town Clerk forthwith canvassed the same and announced the results.

## QUESTION NO. 1

## PROPOSED AMENDMENT TO THE CONSTITUTION

Shall an amendment to the constitution relative to the apportionment of senatorial, representative and councillor districts, further described as follows:

The proposed amendment of the Constitution provides for the annulment of Article XXI of the Articles of amendment of the Constitution and the substitution therefor of a new Article XXI, and for the annulment of Article XXII of the Articles of Amendment of the Constitution and the substitution therefor of a new Article XXII. The proposed amendment embodies in substance the following changes in and additions to said Article XXI and XXII:

1. In proposed Article XXI, towns of twelve thousand inhabitants or more may be divided in forming representative districts. No precincts, however, in such towns may be divided. In taking the census the special enumeration of legal voters shall specify the number residing in each precinct of such towns. Under existing Amendment XXI no town may be divided and no specification of the number of voters in a precinct is required.

2. The division of a county into representative districts and the apportionment of representatives to districts therein is to be made by "The County Commissioner or other body acting as such or, in lieu thereof, such board of special commissioners in each county as may for that purpose be provided by law, . . ." Under Article XXI as it now stands the division and apportionment is made by "The mayor and aldermen of the city of Boston, the county commissioners of other counties than Suffolk,—or in lieu of the mayor and aldermen of the city of Boston, or of the county commissioners in each county other than Suffolk, such board of special commissioners in each county other than Suffolk, such board of special commissioners in each county, to be elected

by the people of the county, or of the Towns therein, as may for that purpose be provided by law, . . . " The time for assembling of such commissioners, board or body for the purpose of making such division and apportionment is also changed, from the first Tuesday of August next after each assignment by the Legislature of the number of representatives to each county, to a time within thirty days after certification by the Secretary of the Commonwealth to such commissioners, board or body of the number so assigned, or within such other period as the General Court may by law provide.

3. Under the proposed Articles, each special enumeration shall be the basis for determining the districts, senatorial, representative and councillor, for the ten-year period beginning in the fourth January following said special enumeration and the present division of districts is to remain in effect until January, 1939. Under the existing amendments the ten-year period is the period between the taking of each census. (Thus, the next re-division based upon the next census in 1935 would, under the proposed Articles, affect those elected in 1938 to hold office beginning in January, 1939, instead of affecting those elected in 1936 to hold office beginning in January, 1937. Under existing amendments representation of newly created districts begins in January of the second year after each ten-year census, whereas under the proposed article it would begin in January of the fourth year thereafter.) The number of representatives (240), senators (40), and councillors (8) is not changed.

4. The Legislature may limit the time within which a division of representative, councillor or senatorial districts may be questioned by judicial proceedings. The existing amendments contain no provision that itself limits or authorizes the legislature to limit such time.

Which received in a joint session of the two houses held May 17, 1928, 182 votes in the affirmative and 48 in the negative, and at a joint session of the two houses held May 26, 1930, received 155 votes in the affirmative and 88 in the negative, be approved?

# BOARD OF SELECTMEN

## GENERAL

As the end of another year approaches, it is well that as a Board of Selectmen, we should give an account of our stewardship to the citizens of the Town. It has been a pleasure and honor to serve the Town. The members of the Board have been obliged to spend, as have the Boards in the past, considerable time attending to the Town business. Meetings are held every Monday night, beginning at 7.30 and rarely ending before 11 or or 12 and often much later.

The Board has carried on its customary work of granting numerous licenses of various kinds, as will appear by the list submitted at the end of this report; has perambulated the boundary lines between Arlington and Winchester, and Lexington and Winchester, in accordance with the statutory requirements; has drawn the necessary number of citizens required for jury duty; has held a large number of hearings on the granting of gasoline licenses, pole locations, and street acceptances.

More unusual events have been the observance of the Massachusetts Tercentenary, the problem involved in the Wedgemere Avenue Extension Development, the great loss to the Town of its Police Chief, William R. McIntosh, and the appointment of his successor, William H. Rogers.

In addition to the comments that will be made under the appropriate subdivisions that follow, we want to call your attention to certain outstanding matters that should be given serious consideration during the coming year, and which are to a certain extent under the jurisdiction of the Board of Selectmen.

The grade crossing situation is rapidly developing and it would not be at all surprising if some definite action were started this coming year.

The re-location and alteration of High Street from the Cambridge Street line to Ridge Street is another matter of importance which we hope will be undertaken next year. Application has been made both to the Department of Public Works and the County Commissioners for assistance, and it is hoped that the Town, State, and County will each bear one-third of the cost. This street is narrow, winding, and dangerous and we believe it should be altered.

The matter of unemployment is a serious one. A competent Committee on Unemployment is at work. The Town generously granted the recommendation of the Board for extra appropriations at the special Town Meeting held in November, so that additional work could be provided for the unemployed. This matter is being given serious consideration in the working out of the budget for the coming year.

Another matter to consider is the future quarters of the Winchester Post of the American Legion. Whether it is advisable to continue the use of the present Legion quarters which are owned by the Town or whether as the Library draws near to completion, it would be wiser to have the house removed and new quarters provided.

The traffic situation, with the constantly increasing number of accidents, increasing congestion in our center, and the increasing parking problem in the center, should have the serious consideration of the Town.

An airplane survey of the Town has been made so that it will soon be possible to have an accurate picture of the Town as a whole. This plan, we believe, will be of great value to the Assessors, the Town Engineering Department, the Selectmen, and to the Town as a whole. Many do not realize that practically one-third of Winchester lies west of Cambridge Street, and much of this area is in a totally undeveloped state. This accurate map will greatly aid in our obtaining a proper prospective of the Town.

Before passing on to the particular subdivisions of our report, we want to give a word of appreciation to some of the Town Department Heads who come within our jurisdiction. The more we come in contact with them, the more we realize that the Town is indeed fortunate in the type of men who are serving it. Mr. James Hinds, the Town Engineer, has served the Town ably and graciously for many years; his services are invaluable. No one except a selectman can truly appreciate the knowledge and value of Mr. George S. F. Bartlett as Clerk to the Selectmen. Mr. David H. DeCourcey, as Chief of the Fire Department, is justly entitled to the high esteem in which he is held. Mr. Parker Holbrook, as Superintendent of Streets, carries on a difficult work in an efficient manner. Maurice Dineen's knowledge of the building laws, his honesty and ability, make him invaluable. The recently appointed Inspector of Wires, William B. MacDonald, has quickly proved his value to the Town. Mr. Hugh J. Grimes, as Workmen's Compensation Agent, is faithfully and with judgment serving the Town. In addition to these officials, mention should be given to the Board of Appeal and the Planning Board, who spend so much time in the service of the Town, without receiving any compensation therefor. As members of the Board of Selectmen, we have the opportunity of seeing the work of these Department Heads, Town Officials, and the various Committees in operation, and we do think it wise that at least occasionallysome word of appreciation should be given to these men for the services they so faithfully render.

The Board is always open to suggestions, and it hopes that the citizens of the Town will not hesitate to call to the attention of the Board any matters which they feel should be given attention.

## BOARD OF SURVEY

Several hearings have been held to consider plans for new street developments. All such plans have first been carefully examined by the Planning Board and by the Town Engineer and their advice is always of real value. The following street plans have been approved:

Dartmouth Street; Drexel Avenue; Wedgemere Avenue from a point about 300 feet northerly from Wildwood Street to Dartmouth Street and Yale Street from Wildwood Street to Dartmouth Street.

## ENGINEERING DEPARTMENT

This department is being carried on in its usual efficient manner and is of great value to the Town.

## FINANCE

### 1. General

The total secured and unsecured indebtedness of the Town on December 31, 1930 was $883,000.00. Approximately $203,000.00 below the statutory debt limit. The total amount of the maturing indebtedness which will be paid in 1930 is $84,000.00. On December 31, 1930, the Town's indebtedness will be approximately $799,000.00 and assuming a normal increase in assessed valuation during 1931 that indebtedness will be approximately $280,000.00 below the general statutory debt limit. The specific authority given to the Town under Special Acts of the Legislature to exceed the general debt by not more than $250,000 for the building and equipment of a secondary school is not considered in this computation. More detailed information concerning the bonds and unsecured notes issued for loans in anticipation of revenue and taxes is as follows:

### 2. Bonds

The bonded indebtedness of the Town on January 1, 1930 was $797,500. Bonds amounting to $165,000 have been issued during the year as follows:

Library Building Loan, $165,000.

Bonds have matured during the year 1930 amounting to $79,500, leaving the net bond debt on December 31, 1930, $883,000.

The Library Building Bonds were dated August 1, 1930, bearing interest at 4%, serial issue 20 years, maturing $13,000 in 1931 and $8000 each year until August 1, 1950. These bonds were sold to Stone & Webster & Blodgett, Inc., at $102.04 and payable at First National Bank of Boston.

During 1931 the bonds maturing will amount to $84,000 and the interest $35,467.50.

### 3. Notes

### LOANS IN ANTICIPATION OF REVENUE

Under date of March 24, 1930, the Town Treasurer was authorized to borrow $200,000 in anticipation of revenue. The loan was awarded to the Winchester Trust Company at 3.32% discounted, plus $2.50 premium.

Under date of June 2, 1930, the Town Treasurer was authorized to call for bids for a $200,000 loan in anticipation of revenue. The award was made to the Day Trust Company at 2.64% discounted, plus premium of $3.00. These notes were dated June 5, 1930, and were due December 10, 1930 at the First National Bank of Boston.

### 4. Taxes

Taxes unpaid January 1, 1931 amounted to $192,100.00 as compared with $193,170.56 on January 1, 1930

## FIRE DEPARTMENT

This department has continued to give the Town the competent and efficient service expected of it. In addition to extinguishing fires, the department, through its Chief, renders valuable assistance in the matter of fire prevention.

## GRADE CROSSING

The statute enacted by the 1930 legislature of the Commonwealth, providing a new procedure for the abolition of railroad grade crossings, and for a new apportionment of the cost of such undertakings, indicates a new interest in this important work, and an early resumption of effective action in various parts of the Commonwealth. Under this statute the abolition of a crossing is no longer to be treated as one of local interest only, but rather as part of a plan operating throughout the state under the direct supervision of the State Department of Public Works and of Public Utilities.

In accordance with the procedure so established, the State Department of Public Works, after a statewide survey, annually compiles a list of crossings, which in its opinion deserve early consideration and forwards this list to the Department of Public Utilities. The latter department, after hearings, issues a "program order", designating the order in which the abolitions of grade crossings on this list shall be considered. The latter department then proceeds to consider the abolition of grade crossings in the order so established, determining the method of abolition and, within statutory limits, the apportionment of the cost. The Town's share of the cost is from 5% to 10% of the total.

Winchester was the second municipality in the state to file with the Department of Public Works its petition for grade crossing abolition under the new statute. After many conferences this petition filed by the Board of Selectmen was allowed, and the crossing was included in the first list of crossings submitted by the Department of Public Works to the Department of Public Utilities for its consideration. Hearings were then conducted by the latter department for the purpose of determining the "program order" above referred to. For this purpose, the Board caused new traffic counts to be made, and oral and written arguments were presented by its counsel, to the Department of Public Utilities. As this report is prepared, this department has not yet rendered its decision.

Meanwhile, the situation at the Centre grows steadily more serious. As measured by stopwatch in minutes and seconds, between 7 a.m. and 6 p.m. the crossing is closed more than one-seventh of the time. Approximately 73% of the total motor vehicle traffic crosses during those hours. This traffic consists of almost 12,500 cars daily, in addition to approximately 150 street cars and the heavy pedestrian traffic in the Center. The inconvenience and delay, as well as the inherent danger of the situation, are too well known to require comment in this report.

The Board is gratified by the recognition given by the State Department of Public Works to the gravity of this situation, and is confident that effective and final treatment of this matter will not be much longer delayed.

## HIGHWAYS AND BRIDGES

The outstanding highway development as planned for next year is High Street, running from Cambridge Street to Ridge Street. This street is very narrow and at some places very curved and dangerous, due to the ledges coming close to the road. The aid of the State and County has been requested and it is expected that they will each pay one-third of the cost, leaving only one-third for the Town to pay. This work will include certain needed alterations at the corner of Cambridge and High Streets. Later this road will be extended to the Lexington line, where it will ultimately connect with a road to be constructed from Lexington to the Winchester line.

The streets which have been constructed during 1930 are: Chestnut Street from easterly end of existing way to Highland Avenue; Grayson Road; Lewis Road; Oneida Circle; Oneida Road; Palmer Street to a point about 950 feet northerly from

Willow Street; Palmer Street from Linden Street to Middlesex Street; Penn Road; Wedgemere Avenue, Wildwood Street to Dartmouth Street; Winthrop Street, Highland Avenue to Myrtle Terrace; Dartmouth Street; Wildwood Street, Lawrence Street to Woodside Road; Main Street, Medford line northerly about 300 feet and Highland Avenue, Chestnut Street to Lawson Road, Euclid Avenue northerly about 200 feet.

The footbridge over the Aberjona River has finally been completed and is proving of value to the residents in the vicinity of Wedgemere Station.

The Metropolitan Commission is at work on the construction of Border Road which will be completed to the Winchester line. Further work will undoubtedly be necessary to get them to continue it to Highland Avenue. This will be attempted next year.

## POLICE DEPARTMENT

The Police Department has suffered a great loss in the death of its Chief, William R. McIntosh, who died on May 26, 1930. He had served the Town from October, 1897. The office of the Chief of Police was filled in accordance with Civil Service Rules, an examination was held, and after serious consideration, Sergeant William H. Rogers was chosen Chief. He is proving able and efficient, and we feel that the Department is in good hands and is functioning properly.

## SIDEWALKS

The Town has continued the custom during the past year of putting in a large amount of granolithic sidewalk construction. Winchester is far ahead of many other Towns in the proportion of its sidewalks which are granolithic. There is a large demand for this work among the property owners of the Town and the matter of deciding which sidewalks should be constructed at this time and which can wait is one of the questions often before the Board. One-half of the expense of the construction of the sidewalk is paid by the Town; the other half is assessed upon the abutter.

## SNOW AND ICE

Large sums of money are spent in clearing our roads and sidewalks of ice and snow and making them safe for travel, but we feel that it is an expenditure well worth while. The Town now plows approximately 43 miles of public ways, 17 miles of private ways, and 110 miles of sidewalks.

## SOLDIERS' RELIEF AND STATE AND MILITARY AID

A large number of applications come before the Board requesting aid for Veterans and their dependents. These claims are carefully investigated and payments made as circumstances warrant. During the past year 35 to 40 applications have been made and $2,084.25, paid out.

## STREET ACCEPTANCES, ALTERATIONS AND BUILDING LINES

Many hearings have been held on these matters. One of the very important matters before the Board during the past year has involved the development of the Wedgemere Avenue Extension area, which has involved the acceptance and establishment of building lines on Wedgemere Avenue Extension, Dartmouth Street, Drexel Avenue, and Yale Street. In addition to these streets, Salisbury Street, Seneca Road, and Wedge Pond Road have been recommended. On the last named, no building line has been set, except for the regular 20 foot building line set by the Town. Necessary alterations have been made on Nelson Street and Woodside Road.

Streets are usually accepted under the Betterment Act. In the new developments, the abutters pay 100%of the cost and in the event of an older development, they pay 50% to 75% and the Town pays the rest.

There have been many more requests for street acceptances than the Board felt could be granted at this time, in view of the amount of money available.

A desirable alteration will probably be made next year at Symmes Corner in cutting off a portion of the land at the easterly side of Symmes Corner, making this dangerous situation much safer. It is expected that the County will share one-half of the expense.

## STREET LIGHTS

New lights have been installed during the past year on the following streets: Ledgewood Road, 2 lights; Forest Street, opposite Forest Circle, 1 light; Brantwood Road, corner of Winford Road, 1 light; Valley Road, 3 lights; Maplewood Road, 1 light; Leslie Road, 1 light.

Special lights, poles, and underground service are installed on the Wedgemere Avenue Extension Development. This is substantially at the expense of the developer. Several lights in the center of the Town have been changed for higher power ones and the poles on which some of these old lights were located replaced by cement poles of a more ornamental and permanent character.

The Town has also assumed the expense of the maintenance of the lights on Jefferson Road, 2 lights, and Felsdale Close, 1 light.

Shades have been placed on numerous lights throughout the Town at the request of property owners who have been annoyed because of the light shining in their windows.

A spotlight has been installed at the junction of Main Street and the Parkway, so as to shine on the traffic officer when on duty at the High School.

## SURFACE DRAINAGE

Winchester has an extensive and efficient system of surface drainage and this matter is taken care of as every street is accepted. The cost is borne partly by the Town and partly by the abutters.

## TRAFFIC AND SAFETY

The Selectmen appointed last year a local Committee of the Governor's Street and Highway Safety Committee, which has spent much time in attempting to remedy the dangerous situations of the Town, and which has made numerous recommendations to the Board, many of which have been adopted.

Danger spots have been eliminated wherever possible, dangerous curbings and corners painted, many street signs erected and painted, and warning signs installed. The dangerous beacons at Cambridge, Church and High Streets, and at Highland Avenue, Mount Vernon Street and Parkway have been removed, and flasher beacons substituted, which we feel are proving of equal value as warnings, and yet are not of themselves traffic hazards. It is recommended that three additional flasher beacons be installed, one at Main Street and Mystic Valley Parkway junction, another at the junction of Washington Street and Parkway, and the third at Washington Street and Swanton Street.

## REPORT OF THE SUPERINTENDENT OF STREETS

*Board of Selectmen,* December 31, 1930
*Gentlemen:*

I respectfully submit the annual report of the work done by the Highway Department for the year ending December 31, 1930.

### MAINTENANCE

**Cleaning:** Our usual procedure of keeping our streets in a clean and orderly condition has been carried on during the past year.

**Patching:** Due to a very sudden change in weather during February, several streets broke up, Highland Avenue and Wildwood Street being the worst, and requiring a week of intensive work to restore the roadways until weather conditions were favorable for the proper repairing of them.

Bituminous cold patching materials were purchased from the American Tar Company for tar at $0.134 per gallon and from the Barber Asphalt Company for asphalt emulsion at $0.16 per gallon delivered at the Town Yard.

**Surface Treatment:** For this work asphalt oils, asphalt binders and asphalt emulsions covered with either sand or pea stone were used.

Asphalt binders and emulsions with a covering of pea stone were used to a greater extent this year and while the initial cost per square yard is a little more, the benefit derived as to wearing surface and better traction for motor vehicles is vastly greater than the use of the lighter oils and sand.

The amount of Surface Treatment work done this year is shown as follows:

| **Material** | **Square Yards** | **Cost per Square Yard** |
|---|---|---|
| 45% Asphalt Oil | 15330 | $.0791 |
| 65% " " | 34363 | .0695 Sand |
| 85-100 Penetration Asphalt | 45962 | .1226 Pea Stone |
| 85-100 " " | 6427 | .1577 No. 2 & Pea Stone |
| Colas | 2769 | .1923 No. 2 & Pea Stone |
| Barber Asphalt Emulsion | 1969 | .1860 No. 2 & Pea Stone |
| Barber Asphalt Emulsion | 2262 | .1509 Pea Stone |

**Equipment:** The Superintendent's Chevrolet Sedan was replaced this year with a Ford Sedan. All of the motor equipment is now in good condition.

The following table gives the make, original cost and cost of operation of the various motor equipment of the Highway Department:

### MOTOR EQUIPMENT MAINTENANCE

| | Oil | Gasoline | Tires | Repairs | Registration | Total | Date Purchased | Original Cost |
|---|---|---|---|---|---|---|---|---|
| Reo No. 2 | $37.11 | $222.10 | $116.15 | $389.26 | $2.00 | $766.62 | 1925 | $1,825.00 |
| Reo No. 3 | 32.06 | 228.24 | 143.05 | 434.87 | 2.00 | 840.22 | 1927 | 1,835.00 |

| Ford Pickup | 13.96 | 131.92 | 51.40 | 23.07 | 2.00 | 222.35 | 1929 | 534.00 |
| Pierce Arrow | 84.57 | 355.72 | ——— | 227.26 | 31.50 | 699.05 | State | Truck |
| Chevrolet Sedan<br>Ford Sedan | 16.11 | 110.50 | 26.05 | 112.75 | 3.00 | 268.41 | 1930 | 714.00 |

**Guard Rails and Signs:** Guard rails and signs have been repaired and painted where needed and kept in their usual good condition.

**Stables and Garage Maintenance:** During the year an average of six horses have been cared for at the Town Stable.

The blacksmith shop has been enlarged and relieves a congestion at that place. The garage for housing the snow loader remains uncompleted at this date.

The cost of maintenance of the stable and garages was as follows:

| | | |
|---|---|---|
| Repairs to Buildings: | | |
| Labor | $336.51 | |
| Materials | 415.57 | 752.08 |
| Maintenance: | | |
| Labor | $2,745.36 | |
| Hay and Grain | 1,391.56 | |
| Fuel | 707.88 | |
| Electric service | 107.25 | |
| Medical service | 106.20 | |
| Telephone | 74.02 | |
| Miscellaneous | 28.60 | 5,160.87 |
| | | $5,912.95 |

There are now garaged at the Town Yard the following motor equipment:

Highway Department:
- 4 Reo Trucks
- 1 Graham Dodge Truck
- 1 Pierce-Arrow Truck (5 tons)
- 1 Ford Pick-Up
- 1 Ford sedan
- 2 Tractors (5 tons each)
- 1 Snow Loader

Sewer Department:
- 1 Ford Truck

Health Department:
- 3 Ford Trucks

Engineering Department:
- 1 Ford Beach Wagon
- 1 Ford Tudor Sedan

Tree Department:
- 1 Ford Truck

Park Department
- 1 Ford Truck

## SIDEWALK CONSTRUCTION

Gravel sidewalks have been constructed and repaired as follows:

Bridge Street—Washington Street to Stevens Street northerly side.

Cambridge Street—High Street northerly about 3000 feet on the westerly side.

Forest Street—Highland Avenue to Forest Circle on the easterly side.

Highland Avenue—Comins to a point about 200 feet south of Everell Road on the westerly side.

Pierrepont Road to a point about 300 feet southerly on the easterly side.

Richardson Street—Main Street to Rumford Street westerly side.

Sylvester Avenue—Carter Street to Royal Street westerly side.

Washington Street—Aberjona River bridge to Woburn line on the westerly side.

Woodside Road—Chesterford Road to Ardley Road on the easterly side.

**Edgestones:** There has been laid new this year 1,870.35 linear feet of straight curbing, and 305.70 linear feet of circular curbing.

In addition, curbings were laid at the corners of the streets accepted and alterations of corners made at the Annual Town Meeting, amounting to 732.85 linear feet of straight and 1,403.0 linear feet of circular.

The H. E. Fletcher Company of West Chelmsford, Mass. was again the successful bidder and furnished the Town with curbing at the following prices, delivered:

| | |
|---|---|
| 7 in. x 18 in. straight | $1.07 |
| 7. in. x 18 in. circular | 1.40 |
| 2 ft. radius corners each | 4.90 |

The average labor cost for setting curbing was $0.80 per linear foot, making a total cost of $1.87 per linear foot for straight and $2.20 per linear foot for circular curbing laid.

**Granolithic Sidewalks:** There has been constructed this year 3,716.63 square yards of granolithic sidewalks at an average cost of $2.59 per square yard.

There has also been 654.23 square yards of granolithic sidewalks repaired, and 134.95 square yards of granolithic aprons and stepstones constructed, making a total of 4,505.81 square yards laid during 1930.

**Tar Sidewalks Repairs:** There has been repaired 1,181.0 square yards of old tar concrete sidewalk by resurfacing with an asphalt and sand mixture after adjusting all low places to a suitable grade. This work was done at an average cost of $0.85 per square yard.

## STREET CONSTRUCTION

**Public Ways:** The following public streets have been reconstructed during 1930 by the department forces:

| Street | Type of Construction | Sq. Yds. | Total Cost | Cost per Sq. Yd |
|---|---|---|---|---|
| Arlington St. | Mixed Top | 384 | 813.59 | 2.118 |
| Highland Ave. | Mixed Top | 1765 | 4462.97 | 2.528 |
| Main Street | Vulcanized Pavement | 4051 | 6197.95 | 1.530 |
| Main Street | Mixed Top | 1030 | 3363.11 | 3.265 |
| Wildwood St | Bituminous Macadam | 4005 | 5712.34 | 1.426 |

**Accepted Streets and Alterations:** The following streets accepted or altered at the Annual Town Meeting in March were constructed:

| Street | Type of Construction | Square Yards | Total Cost | Cost per Sq. Yd. | Remarks |
|---|---|---|---|---|---|
| Central Srteet | | | $360.00 | | Corner widening |
| Chestnut Street Layout | | | 2,064.17 | | Relay Curbing and ConstructSidewalk |
| Chestnut Street Alteration | | | 1,873.94 | | Sidewalk Construction |
| Fenwick Road Footway | | | 550.00 | | |
| Grayson Road | Bituminous Macadam | 2868 | 4,893.68 | $1.516 | |
| Lawsor Road | | | 275.00 | | Corner widening |
| Lewis Road | Bituminous Macadam<br>Gravel | 130<br>1188 | 1,310.00 | | |
| Oneida Road | Bituminous Macadam | 4330 | 7,067.45 | 1.346 | |
| Oneida Circle | Gravel | 582 | 1,500.00 | 2.031 | |
| Palmer Street North | Gravel | 900 | 1,840.00 | 1.632 | |
| Palmer Street South | Gravel | 2825 | 2,640.00 | 0.934 | |
| Penn Road | Gravel | 1076 | 1,700.00 | 1.285 | |
| Wedgemere Avenue | Gravel<br>Mixed Top | 1182<br>175 | 3,000.00 | 2.061 | |
| Wildwood St. and Church St. | | | 350.00 | | Corner widening |
| Wildwood St. and Church St. | | | 425.00 | | Corner widening |
| Winthrop Street | Mixed Top | 1455 | 6,455.96 | 4.437 | |
| Woodside Rd. and Wildwood St. | | | | | Corner widening |

The alterations of the corners of Central Street, Wildwood Street and Church Street, Wildwood Street and Woodside Road, and Lawson Road have been very beneficial to traffic and have reduced materially the dangerous hazards at these places.

There are still a number of street corners that by widening would be a great benefit to traffic.

## SURFACE DRAINAGE

The following surface drainage has been constructed during 1930:

| | Size in Inches | Length in Feet | Man-holes | Catch Basins | Labor | Materials | Total Cost | Cost per Lin. Ft. | Remarks |
|---|---|---|---|---|---|---|---|---|---|
| Cambridge St. | 24 in. | 582 | 4 | | | | $5,713.21 | $9.82 | |

## SNOW AND ICE

The past year has again been a continuation of light snow-fall, but these light snow-falls have made for slippery and hazardous operations of motor vehicles and has required much sanding to make the roads safe for the traveling public.

Sanding, to protect the public on the streets and sidewalks is increasing every year.

The cost of removal of snow and ice and sanding walks and streets for the year 1930 was as follows:

| | Labor | Horse Hire | Truck Hire | Materials | Equipment | Total |
|---|---|---|---|---|---|---|
| General Snow Removal | $4,010.71 | $617.56 | $95.80 | $643.69 | | |
| Stablemen | 517.14 | | | | | $5,884.90 |
| Plowing Walks and Streets | 1,699.59 | 1,145.44 | 1,873.75 | 2.50 | | 4,721.28 |
| Sanding Walks and Streets | 3,475.46 | 1,051.00 | | 117.82 | | 4,644.28 |
| Repairs to Tractors, Plows and Tools | 693.89 | | | 545.23 | | 1,239.12 |
| Shoeing | 27.34 | | | 61.71 | | 89.05 |
| Equipment | | | | | $756.90 | 756.90 |
| Tools | | | | 81.00 | | 81.00 |
| Total | $10,424.13 | $2,814.00 | $1,969.55 | $1,451.95 | $756.90 | $17,416.53 |

## RECOMMENDATIONS

**Maintenance:** I still wish to urge that a permanent bridge be constructed over Horn Pond Brook at Lake Street. The greater use of asphalt binders and emulsions covered with crushed stone for surface treatment has proved successful and I would like to recommend that a larger appropriation be alloted to this item.

**Sidewalks:** The construction of granolithic sidewalks should be carried along in 1931 to at least the same amount as preceding years.

The resurfacing of the old tar sidewalks with an asphalt and sand mixture in 1930 has proven successful and very reasonable in cost and should be continued in 1931.

Gravel sidewalks are still needed on the outlying main thoroughfares in the interest of safety to pedestrians.

**Street Construction:** A nominal program of street resurfacing and reconstruction should be carried on. High Street, throughout its entire length, should be relocated and constructed and portions of Highland Avenue are in need of reconstruction.

## HIGHWAYS AND BRIDGES

I present a summary of the appropriations and expenditures itemized under the headings used in our accounting:

## REPORT OF THE TOWN ENGINEER

December 31, 1930

*To the Board of Selectmen,*
*Gentlemen:*

I present herewith a report of the activities of the Engineering Department for the current year. A summary of the work under departmental headings follows:

### SELECTMEN'S DEPARTMENT

#### New Town Ways

At the annual town meeting the following streets were accepted as public ways:

Chestnut Street, from the easterly end of the existing public way, to Highland Avenue; Grayson Road, which extends from Washington Street to Highland Avenue; Lewis Road, a short way connecting Church Street with Wildwood Street; Oneida Circle, which extends from Oneida Road to Seneca Road: Oneida Road, which connects Cambridge Street with Westland Avenue; Palmer Street, in two sections, one of which extends to a point about 950 feet northerly of Willow Street, while the other begins at Linden Street and extends to and across Middlesex Street; Penn Road, which extends from Oneida Road to Seneca Road; Wedgemere Avenue, which begins at Wildwood Street and extends northerly about 300 feet; and Winthrop Street, which connects Highland Avenue with the southerly terminus of Myrtle Terrace.

At the special town meeting held in the late fall the following streets were made public ways:

Dartmouth Street, which extends easterly from Wedgemere Avenue to a dead end;

Drexel Avenue, connecting Wedgemere Avenue and Yale Street;

Wedgemere Avenue, which is an extension of that part of this way accepted in March, and which ends at Dartmouth Street;

Yale Street, in two sections, extending from Wildwood Street to Dartmouth Street.

The total length of all the above streets as accepted is about 7926 feet or 1.5 miles.

These streets were laid out 40 feet wide with the exception of that part of Palmer Street which extends northerly from Willow Street, which was made 50 feet wide, Winthrop Street, which was laid out 30 feet in width to a point somewhat over half of its length; from which point it gradually increases to its greatest width at Myrtle Terrace where it is 40 feet wide, Chestnut Street, which was laid out 41 feet wide, Yale Street, one section of which is 42 feet wide, while the other is 40 feet in width, and Wedgemere Avenue which was made 80 feet in width.

The laying out and acceptance of Winthrop Street has accomplished the elimination of two dead end streets, which has resulted in materially bettering abutting property which was very difficult of access prior to acceptance, as well as providing a link between two streets which is of considerable value to the public.

The acceptance of the easterly end of Chestnut Street has provided a public way of uniform width and type of construction from Main Street to Highland Avenue which was not the case before acceptance.

In Chestnut Street as accepted and in the widening of that part of this way which has been a public way since 1857 land was taken along the entire length of each side in order that a uniform width might be obtained.

In the area east of the Boston and Maine Railroad and bounded further by Fenwick Road and the Aberjona River, which area is under the jurisdiction of the Metropolitan District Commission, a foot way, so called, has been laid out in accordance with a plan made by the Engineering Department. This layout has been approved by the District Commission. A steel beam foot-bridge has been constructed over the river in replacement of the old wood bridge which had reached an extreme state of decay.

Plans of layout as to lines and grades, estimates of cost of construction in each case, land damages and estimated betterments were made in the latter part of 1929 for hearings held from time to time in 1929, and for use in town meeting. It follows, as a matter of course, that lines and grades for construction purposes are given by this office.

The engineering work noted above includes the placing of stone bounds to mark the termini and changes in direction of lines of the streets accepted.

## STREET BETTERMENTS

As all streets accepted in recent years are constructed under provisions of law which provide for the assessment of betterments, we have submitted for your approval schedules of betterments based, in some cases, on a 50% division of the estimated cost of construction, and in the rest, on a 100% spread of the cost over the property benefited. As Dartmouth Street, Drexel Avenue, the northerly section of Wedgemere Avenue, and the two sections of Yale Street have not yet been constructed, I am leaving out betterment schedules on these streets.

The following table shows in short form the betterments committed on account of the streets construction.

| | Estimated Damages | Estimated Better-ments | Basis |
|---|---|---|---|
| Chestnut Street Acceptance | $1,156.64 | $1,032.09 | 50% |
| Grayson Road | 40.00 | 6,003.95 | 100% |
| Lewis Road | 0.00 | 655.11 | 50% |
| Oneida Circle | 0.00 | 1,499.97 | 100% |
| Oneida Road | 0.00 | 10,587.07 | 100% |
| Palmer Street, Southerly | 0.00 | 377.12 | 50% |

## ALTERATION OF STREET LINES

Several alterations of lines of public ways were made during the year, the purpose being to improve travel conditions at corners of intersecting streets, or at other places where such alterations have long been needed.

These alterations have been as follows:

At the corners of Church and Wildwood Streets which were made by rounding the corners by the taking of land from the abutting owners, 105 square feet being taken on one corner for which $33.00 in damages was awarded, while in the other case, 110 square feet were taken, for which damages of $35.00 were awarded.

At the northerly corner of Lawson Road and Highland Avenue a "rounding" was made, 90 square feet of land being taken, and $25.00 paid as damages.

At the angle in Central Street at Rangeley Road, another "rounding" was made by the taking of 189 square feet of land for which damage of $60.00 was awarded.

In Chestnut Street, along each side of its length in the part which has been for many years a public way, 2502 square feet of land were taken for widening to a uniform width of 41 feet, for which $583.29 were awarded as damages. The reasons for this alteration need no repetition at this time.

In that part of Chestnut Street which was accepted as a public way 5581 square feet of land were taken for the purpose of widening the street to conform with the width resulting from the alterations in the old part of the street. For this taking, which was from six separate properties, $1,156.64 were awarded as damages.

At Wildwood Street and Woodside Road at the junction of the westerly line of Woodside Road with the northerly line of Wildwood Street an alteration has actually been made, 290 square feet of land having been transferred to the town by the owner of this property. It has not yet had formal town meeting action, although it has received your official approval, and was made at the suggestion of the owner of the land affected, and at no expense to the town, except with respect to actual construction expense of making the alteration.

In South Main Street at and near Everell Road a proposal has been made to alter the easterly line of Main Street over about 450 feet of its length by the taking of land from abutting property, thereby making the curve less sharp, and reducing the possibility of accidents which have become quite frequent in the past few years.

A petition to the County Commissioners for this alteration has been made and a hearing on the matter has recently been given by them.

## PROPOSED NEW TOWN WAYS

Your Board has recently held hearings on proposals to accept certain ways which are here given:

Arlington Street Extension, a short portion of,
Lochwan Street, from Loring Avenue to Hill Street,
Manomet Road, which connects two sections of High Street,
Salisbury Street, from Foxcroft Road to Wildwood Street,
Seneca Road, from Oneida Circle to Westland Avenue,

Stowell Road, over its entire length, and
Wedge Pond Road.

Plans of these ways, together with estimates of costs of construction and betterments have been prepared and used at the hearings.

## PROPOSED ALTERATIONS

It is proposed to alter a portion of the northerly line of Nelson Street so that the actual layout line shall coincide with the line of travel along the part of the way as proposed to be altered. This will involve the taking of small areas of land from four property owners who seem to be willing to have the alteration made.

Other alterations have been suggested from time to time which would be desirable and are, in reality, very necessary.

These are in process of development.

The most important of these is in High Street at its easterly end, and in other sections along its entire length.

The subject of High Street alterations is very important and warrants space enough to set forth, in brief, what is intended. This I now do.

## PROPOSED HIGH STREET ALTERATIONS

High Street is what we commonly term a "county way."

It begins at Cambridge Street and extends to Ridge Street, from which street it continues in a narrow, rambling course to the Lexington-Winchester town line.

It was laid out originally about two rods wide, and is described as extending from Cambridge Street to the Lexington line "between walls" which, as has been stated, resulted in a width of about two rods. Some years ago it was thought necessary to have the lines more closely defined. The County Commissioners, on petition, defined the lines in 1906 but, in doing so, judged that the layout should be increased in width to 50 feet. The layout is now 50 feet wide.

About ten years ago the Board of Selectmen of that time were of the opinion that the roadway should be improved by constructing it over practically its entire length as far as Ridge Street.

This was done, the lines of the existing traveled way being followed.

The result was that, while the roadway was vastly improved with respect to its surface, the same winding, crooked traveling space remained, the roadway being, in long stretches of its length, not more than 12 to 15 feet wide.

But the greatest drawback to its value as an important highway is the lack of visibility and the very dangerous situation created by the large number of short, sharp changes in direction of its lines, and the high banks and projecting ledges which obscure the vision of motorists who use this highway.

This is most notably true of the section near the northerly end of Arlington Street, and in the section north of the Winchester Country Club property where there are six changes in direction in a comparatively short distance.

The sharp curve at Arlington Street can be made less dangerous if Manomet Road is used as a part of the layout of High Street, and travelers be encouraged to use Manomet Road and not to use the part included in the sharp turn noted above.

The section of High Street which includes the six short courses already referred to can be made much safer and better by reducing the number of direction changes by radical changes in lines, and by cutting back and adequately sloping the high banks and ledges which now obstruct the vision of those traveling in this part of High Street.

Another very dangerous section where visibility is much obscured is at the junction of High Street with Cambridge Street. This dangerous condition has been recognized for years. The remedy would seem to be by the taking of land at either corner, and regrading a part of the private land at one corner, and the rearrangement of planting at the other corner.

Recognizing the importance and desirability of these alterations, and believing that High Street and its future extension will provide a direct, logical and increasingly useful highway from Winchester to Lexington, your Board has taken steps to bring about the accomplishment of these results by petitioning the Department of Public Works of the Commonwealth, and the County Commissioners, for alterations in High Street, and its construction in a thorough manner by the application of provisions of the statutes which permit state and county participation in the expense of the work as proposed or as finally adjudged to be necessary.

## BUILDING LINES

The annual town meeting voted to extablish building lines on the following streets in accordance with plans made and which you approved after hearings duly held.

Lake Street, a ten (10 feet line along the northerly side from Main Street to Linden Street,

Lawson Road, a twenty-five (25) feet line along each side over the entire length of the street, and

In Wedgemere Avenue, thirty-five (35) feet lines along each side over that portion of the street which extends from Wildwood Street to a point about 300 feet northerly of Wildwood Street.

The town meeting held in the fall voted to establish building lines as follows in accordance with plans which had received your approval after the usual hearings had been held.

Dartmouth Street, a twenty-five (25) feet line along each side from Wedgemere Avenue to its easterly terminus;

Drexel Avenue, a twenty-five (25) feet line along each side of its entire length;

Wedgemere Avenue, a thirty-five (35) feet line along each side from the northerly end of the way as accepted in March to its northerly end;

Yale Street, a thirty-five (35) feet line along each side from Wildwood Street to Drexel Avenue, and a twenty-five (25) feet line along each side from Drexel Avenue to Dartmouth Street, the line on the easterly side, from Drexel Avenue to Dartmouth Street, gradually decreasing from 35 feet to 25 feet.

## PROPOSED BUILDING LINES

As no decision has yet been made as to just what streets will be recommended for acceptance, nothing definite can be said at this time of the establishment of building lines on proposed new streets.

## FOREST STREET

The work of completing the reconstruction of Forest Street has been accomplished this year.

While the roadway work and drainage features were completed in 1929, there were several adjustments of bordering lots to the new grade of the street made in 1930.

In addition, sidewalks which were contemplated and which could not be undertaken in 1929 were laid out and graded this year.

The entire job of reconstructing Forest Street may now be said to have been completed. Through efforts made by your Board and the engineering office the final amount of reimbursement to the town by the state and county was very substantially increased over what the amount was expected to be at the end of 1929.

Land damages on acount of alterations in the lines of Forest Street have been settled in full for the amounts originally awarded to individual land owners without controversy.

In these land damage awards the releases were prepared by the Town Counsel, while the negotiations relating to them were carried on from the engineering office and the actual signatures were obtained by this office.

## BOARD OF SURVEY LAYOUTS

A year ago consideration was being given to the layout by the Board of Survey of an extension of Wedgemere Avenue northerly from Wildwood Street, and to the layout of Dartmouth Street, Drexel Avenue and that part of Yale Street which lays between land of Tutein and Dartmouth Street, all these proposed ways being in the so-called "Roop development." After numerous conferences and several hearings the Board of Survey approved the layouts of these ways along lines which satisfied originally conflicting opinions.

Later in the year a way to be called "Yale Street", and which is an extension of the Yale Street in the "Roop development" was laid out through land of Tutein to Wildwood Street so that its end as to location is exactly opposite Yale Street as laid out and accepted several years ago.

The layout of this part of Yale Street was made on the Selectmen's initiative.

The layout of these two parts of Yale Street together with the older part of Yale Street now constitutes a through way from Calumet Road to Dartmouth Street.

The proposed Board of Survey layout of a way to extend northerly from Lake Street to Sylvester Avenue reached the stage, early in the year, of general agreement as to the lines of the suggested way, but it has not yet received your signed approval.

## PROPOSED BOARD OF SURVEY LAYOUTS

A petition by the Winchester Chamber of Commerce to the County Commissioners is now pending for the layout of a throughway from a point at or near the junction of Wildwood Street extension and Westland Avenue across country to Lexington at or near Maple Street in that town.

The petitioners were given opportunities to be heard in Winchester and at the County Commissioners' offices in Cambridge.

At these hearings it developed that there were no adequate plans of the territory in Winchester to be traversed by this highway.

The matter of tentative location has been held in abeyance until such time as a layout in Lexington and Winchester can be worked out by the engineering departments of Lexington and

Winchester, after which it is to be submitted to the county engineer for suggestions or approval.

I think your Board agrees that a highway from Winchester to Lexington by way of High Street and its extension to the Lexington line, and thence in Lexington to Maple Street or some other terminus in Lexington will be a reasonable and proper answer to this petition.

## AERIAL SURVEY

In connection with the layout of the way mentioned in the preceding paragraphs I have called to your attention the fact that sufficient plans of the territory to be opened by it were not available, and have urged that an aerial survey be made of the territory in question and of the entire town.

You have authorized the expenditure of a sizeable balance in the engineering account which, with a transfer of $250. from the "Reserve Fund", will provide for air-plane photographs of all the area lying west of Cambridge Street, contact maps of the sections into which the area may be divided, an index map of the areas in question, and enlargement of the contact maps from 600' to the inch to 100' to the inch.

If additional funds are made available for further aerial work next year I believe it is very desirable to have contact maps of the entire town, a mosaic of the whole town, and such enlargements of the 600 scale prints as may be needed.

The advantages of such plans, especially of the area west of Cambridge Street, are very evident.

They will supply a long felt want.

They will permit the assessors to have much more accurate knowledge than they now have of an area which, taken as a whole, comprises about one third the area of the entire town. They will provide a means of laying out future ways in this large area in a comparatively easy and comprehensive way, and at a minimum of expense.

By the plotting of such ways before real estate interests reach this area for development, the advantage will lie with the town in guiding development, so far as highways affect development, and in a better way than if prospective streets are not in existence on a plan or even thought of.

## PERAMBULATION OF TOWN LINES

The lines between the towns of Arlington and Winchester, and the towns of Lexington and Winchester were perambulated this year in accordance with statutory requirements.

All monuments at the several corners, and "line" stones were found to be in place in their proper positions.

A corner marker on the Woburn-Winchester line was removed a few years ago to make room for a street alteration in Cambridge Street. A "witness" marker has been placed near the position of the real marker so that the actual corner position can be easily found when desired.

## STREET CONSTRUCTION LINES AND GRADES

In the work of constructing streets accepted this year under the betterment plan in street alterations, and in numerous cases of street and sidewalk improvements carried on during the year the usual and customary engineering services were rendered whenever asked.

Stone bounds to mark the lines of the new streets and alterations were set.

## GRANOLITHIC SIDEWALKS

The table which follows shows the locations and extent of the permanent sidewalks laid during the year.

All details of making estimates, preparing orders for the walks, lines and grades for the work of construction, placing permanent street line markers, measuring and computing areas of walks laid, as well as preparing schedules of sidewalk betterments, are regular features of the Engineering Department's work.

## GRANOLITHIC SIDEWALKS CONSTRUCTED IN 1930

| | |
|---|---|
| Central Street | 457.47 square yards |
| Chestnut Street | 441.11 |
| Clark Street | 334.32 |
| Hemingway Street | 253.96 |
| Highland Avenue | 244.53 |
| Hillside Avenue | 159.00 |
| Madison Avenue West | 185.35 |
| Mt. Pleasant Street | 196.62 |
| Mt. Vernon Street | 202.80 |
| Oxford Street | 253.54 |

| Willow Street | 87.57 |
| Woodside Road | 129.05 |
| Yale Street | 69.33 |
| | 3,716.63 square yards |

This total yardage if laid in a continuous stretch of sidewalk 5 feet wide, which is the accepted width of our sidewalks, would be equivalent to about 1.27 miles.

## GRANITE CURBING LAID IN 1930

Straight: 1855.15 Linear Feet
Circular: 210.00 " "
2 ft. corners: 21 corners

Schedules of betterments on account of sidewalks and curbings laid during the year totalling $6710.73 have been submitted to you for commitment.

## SURFACE DRAINAGE

A very extensive program of additions to our storm water system has been carried out this year.

About 9000 linear feet of pipe drains, ranging in size from 5 inches in diameter to 27 inches in diameter have been laid, together with 32 manholes, and 53 catch-basins.

As you are aware all the engineering features of this work, layouts, grades and permanent plan records are part and parcel of this department's work.

Details of the construction end of the work are given in the Superintendent of Streets report.

There was one section of drainage work which was of particular importance.

I refer to the drain in Cambridge Street.

When Oneida Road was under consideration for acceptance as a public way, the natural outlet for its underground drainage was by way of Cambridge Street to a culvert in private land at the southeasterly corner of Church Street at Cambridge Street, and thence by way of an open brook to Mystic Lake.

The existing drains in Cambridge Street constructed by the Department of Public Works of the Commonwealth of Massachusetts several years ago were not adequate for the extra load to be put upon them by the storm water from Oneida Road and territory west of Westland Avenue, and for the volume of water produced by a large area west of Cambridge Street and north of Oneida Road.

These facts were called to your attention and then, at my request, I was authorized to try to secure the cooperation, if possible, of the Public Works Department of the Commonwealth in the construction of a section of drain of large size to extend from Church Street to Oneida Road, as well as to receive their assent to the extension, when necessary, of this large size drain to a point about opposite Foxcroft Road and, thereby, make provision for the care of storm water which will reach Cambridge Street from streets which are certain to be laid out and constructed in the near future.

After several conferences with officials of the Department of Public Works these officers agreed that the proposed drains of larger size were necessary for present and future requirements, and that the Public Works Department would cooperate with the town in bearing the expense of the section between Church Street and Oneida Road.

The extent of the money contribution which was made by supplying materials for use in the drainage work in Cambridge Street and vicinity was $1250.

In the drainage work in Dartmouth Street the outlet was through private land to Winter Pond.

An easement for drainage purposes over this private land was secured.

In 1929 a section of open brook in private land on the northerly side of Forest Street opposite Highland Avenue was enclosed in a drain pipe of large size. Easements for this drainage right were secured from the two property owners concerned.

## STREET NUMBERING

Several streets have been renumbered during the present year. There are a few short streets which are still improperly numbered. The lack of enthusiasm on the part of property owners on these streets has caused us to take no steps which will "stir them up." Aside from the few instances referred to above, the town is completely numbered.

## RUSSELL BROOK

This brook is a constant source of annoyance and, it is fair to assume, expense to the property owners through whose land it flows, and an undoubted cause of worry and expense to the town and its officials. From time to time complaints are made to you that some owner's wall has fallen into the brook, or that some abutting owner is obstructing the brook through encroachment on it by the construction of a wall or some other structure erected to prevent the washing away of a portion of his land.

Response is always made to these complaints and such aid and comfort as is possible is given the complainants.

The final net result is that the highway department takes on itself at least partial care of the brook and removes obstructions which lodge in the culvert at Main Street, and does other work of clearing our floating matter which, if it were not removed, would obstruct the flow and cause flooding in Glenwood Avenue.

This care and work entailed costs, so I am informed, from $300. to $500. annually.

It seems quite plain that the acts of owners along Russell Brook are the cause of all the trouble from the brook which afflict them through their encroachment and contraction of the natural space required when it is in flood. I have been directed to submit for consideration plans and estimates of cost of ways of doing away with the troubles caused by the brook.

The long view of the whole matter would seem to suggest the enclosure of it in a culvert or large pipe over the whole or the greater part of its length within our borders.

Studies are being made at this time of the size of the culvert or pipe required to carry the brook if it is to be enclosed, and of the route to be followed in the event that it is recommended to enclose it. The cost of making an underground conduit for it will be large if the whole work is carried out, and will be substantial if any considerable part of it is done.

I have made suggestions to your Board that the work of enclosure might be done in sections, the whole work to extend over a period of two or more years.

The whole matter is in the stage of further consideration.

## MISCELLANEOUS SERVICES FOR SELECTMEN'S DEPARTMENTS

The usual work of checking plans and making reports on petitions for extensions of pole lines and locations for new street lights has been done throughout the year and with the same painstaking attention.

The consolidation of pole lines in Everett Avenue has been completed with good results.

In the new territory opened by the laying out of Wedgemere, Avenue, Dartmouth Street, Drexel Avenue and Yale Streets underground conduits for the supplying of electrical service to the dwellings now being erected there have been installed in place of the usual poles and overhead wires.

While the expense of the installation of underground wires was borne by the developer of the property, yet it may fairly be said that your Board and yout agents extended to him every possible cooperation and encouragement.

It is part of the routine work of the Engineering Department to investigage numerous matters which came up during the year, all of them of importance, and to make reports for your consideration. These are too numerous to mention.

## PLANNING BOARD

Our services for the Planning Board have been confined to conferences on street acceptances and related matters.

## PARK DEPARTMENT

A plan for the development of the park area at Main and Lake Streets was prepared for the Park Commissioners and accepted by them.

Lines and grades for the layout of the entire area, and for paths and new shore line were given for the guidance of the contractor who did the work.

Other customary services were rendered for improvement of the playfields under the supervision of the Park Commissioners.

## ASSESSORS DEPARTMENT

Our services rendered this department extend over the entire year; in fact, the tngineering office is a bureau of information and assistance for the use of the Assessors, the Collector, and for every one who desires to know why and how much he is taxed for street and sidewalk betterments, sewer assessments, etc.

Taken as a whole, the service is indespensible and of great value.

The "Assessors' plans", so called, are being rapidly increased by the addition of them of plans of sub-divisions of land coming to us from the Land Court, and from the Registry of Deeds.

The airplane survey maps of the large area west of Cambridge Street will result in a more intimate and detailed knowledge of the area as above, and will be of increasing usefulness to the Assessors as time goes on.

## WATER DEPARTMENT

The extent of the installation of new mains and the renewal of old mains, comprising the work in these directions during the year, will doubtless appear in the report of the Water and Sewer Board and, therefore, will not be duplicated in this report.

Preliminary plans and, after the mains have been laid, permanent plans of record have been made in each case of the laying of new mains and renewals.

Record locations of all services of this year have been made or are in process of completion.

All engineering records of mains and services are in excellent shape and up to date.

In addition to the service rendered in laying out and making plans and records of mains and services much work of a general character was done during the year for this department.

## SEWER DEPARTMENT

Common sewers have been laid out and constructed during the year as shown by the appended table.

The total length of common sewers constructed and in use on December 31, 1929 was 41.242 miles.

The construction of 1930 brings the total of Dec. 31, 1930 to 42.53 miles.

As a preliminary part of the sewer construction of 1930 taking plans have been made and recorded as follows:

Chesterford Road—East
Chesterford Road—West
Dartmouth Street
Drexel Avenue
Leslie Road
Madison Avenue West
New Meadows Road
Wedgemere Avenue Extension
Yale Street, a part of

Schedule of betterments on account of certain sewers constructed in 1929 totaling $10,563.81 were submitted to the Water and Sewer Board early in 1930.

Other schedules of betterments on account of sewers constructed in 1930, amounting to $13,965.68 have been submitted from time to time during the year.

One hundred and nineteen (119) connection swere made with the public sewers during the year of a total length of 5673 feet or 1.074 miles.

The grand total length of house connections to Dec. 31, 1930 is 28.605 miles.

## CEMETERY DEPARTMENT

Services rendered this department have been such as are requested from time to time, and have consisted in laying out lots, roads and paths, and re-dividing certain areas in the cemetery.

The records of interments on special record forms provided for the purpose have been kept up to date.

## LEGAL DEPARTMENT

Reports have been made to the Town Counsel in Land Court cases whenever such reports are requested for the protection of the Town's interests in such matters.

Numerous plans have been made for the Town Counsel's use in securing releases in land damage cases and for drainage easements etc.

This department has aided him in many instances in securing releases as a part of the settlement of land takings for street alterations, and in the releases of water rights along theAberjona River in the area lying between Cross and Washington Streets.

## SPECIAL COMMITTEES

For the Library Committee a plan has been made of the lot on which the new library is now being erected with special reference to the service driveway as it will be affected by the proposed new driveway from Mt. Vernon Street to Washington Street, and the proposed additional facilities for parking cars in the rear of the town hall.

Further assistance has been given the Committee in the laying out of sewerage and basement drainage facilities.

For the Waterways Committee plans have been made of the area taken over by the town for park purposes lying along the Aberjona River between Cross and Washington Streets and extending westerly to the Boston and Maine Railroad.

Services have been rendered this Committee, also, in studying the future layout of this area, and in dealing with property owners whose rights were affected by this acquisition.

We have also been requested to study Russell Brook with a view to seeing what can be or might be done in the direction of improving conditions along this waterway.

For the Committee on Additional School Facilities data has been furnished to and plans made for the Committee in its most recent investigation of school sites.

Incidental to the Committee's work of looking into the question of the value of the several sites proposed the question arose as to the rearrangement of offices in the town hall.

Suggestions and plans were made for a reasonable apportionment of the space to be made available by the removal of the library to its new quarters.

For the Committee on Additional Water Supply information has been furnished as to the areas of lands considered as possible sources of additional water supply.

For the Committee on Tercentenary Observation plans showing ancient grants of land in the earliest days of Winchester's settlement, and of the boundaries of the town as of 1834 when Winchester was a part of Woburn, Medford and West Cambridge were made from old records on file in the town library.

Considerable time was spent, also, in other features of the town's observance of the tercentenary year.

## IN GENERAL

In making a report of this kind only the more important features of the work can be noted except at the risk of too much elaboration, and the use of too much space.

There are many small matters in the course of the year which require investigation and attention, the sum total of which consumes a very large part of the Town Engineer's time.

The personnel of the Department is as it was a year ago with one exception.

One young man retired from the service in the latter part of October. His place has not yet been filled. The needs of the Department require six men.

I have presented for your consideration an estimate of the expense of running the Department for the next twelve months, and have included a sum sufficient for the wages of the sixth man as part of the total figure.

The plans which were in arrears two years or more ago are now, for the most part, in excellent shape.

Street and drainage plans are up to date or will be as a result of the office work of the winter months.

Water Department plans of the year's extensions and renewals are in process of being put in permanent form.

Cemetery records are up to date as of October, the last date when the Cemetery Department's records are handed to us for putting in permanent form.

The only plans of any importance which are not up to date or in the form in which they are now carried, are those of certain years of Sewer Construction.

The progress made on these plans is necessarily slow, since no time can be found for work on them except during the winter months.

They are being gradually completed.

Respectfully submitted,
JAMES HINDS,
*Town Engineer*

## REPORT OF THE TOWN COUNSEL

December 31, 1930

*To the Board of Selectmen*
*of the Town of Winchester.*

I report as follows for the year 1930:

The following inactive actions and proceedings pending at the beginning of the year are still pending,

**Selectmen of Winchester, Petitioners vs. Boston & Lowell Railroad** et al. (1900) Petition for abolition of grade crossing. Superceded by present proceedings before the Department of Public Works.

**Selectmen of Winchester, Petitioners.** (1914) Petition for through car service at Arlington.

**Caroline W. Witherell, Petitioner.** (1915) Petition for registration of title to land.

**Winchester vs. Boston & Lowell Railroad Co.** (1917) Petition to compel alteration of Cross Street bridge.

**Ersilia N. Sylvester vs. Town of Winchester.** (April 1927)
**Ersilia N. Sylvester vs. Town of Winchester.** (May 1928) Petitions for assessment of land damages.

As your board is familiar with and is to embody in its report a memorandum with respect to the status of the proceedings for the abolition of the grade crossing, I omit any further reference thereto.

The following actions were brought in 1930:

Achiles LaTorella p. p. a. vs. Town of Winchester and Wendall Mansfield (February 1930) Superior Court. Action of tort for personal injuries alleged to have been sustained by plaintiff in the High School gymnasium.

Mary Hubbard vs. Town of Winchester (June 1930) Superior Court, Middlesex County. Abraham C. Hubbard vs. Town of Winchester (June 1930) Superior Court, Middlesex County. Actions for personal injuries alleged to have been sustained by Mary Hubbard by reason of alleged defective sidewalk.

City of Boston vs. Town of Winchester (July 1930) Superior Court. Petition for assessment of damages for taking of land.

The petition brought by the City of Boston arose from the taking of the land at the corner of Main and Lake Streets for park purposes. It was found that the City of Boston acquired title to 2880 square feet of land near the bridge in 1878 for the protection of the Boston water supply system. The petition was filed to save the right of the City to have its damages assessed by a jury, but a favorable settlement is anticipated.

The LaTorella case is pending on demurrer and the others on their merits, liability being denied.

George A. Daley vs. Harry W. Stevens et al (Selectmen). This was a petition to the Justices of the Supreme Judicial Court for a writ of mandamus commanding the Selectmen to submit to the voters at large at the referendum meeting of June 12, 1930, the question contained in Article 10 of the warrant for the representative town meeting of May 26, 1930.

Arguments were made on June 10, 1930 and the petition was denied.

As there appears to be a general misunderstanding as to the question involved and the effect of the decision in this proceeding, a review may be in order.

At the annual town meeting in March a motion "that the town recommend to the Selectmen that a license for a moving picture theatre be granted" was lost by a vote of 124 in the affirmative and 36 in the negative, to lay said motion on the table.

The motion, in its original form, was submitted to the voters at large for determination by ballot at a referendum meeting held the second day of May and was determined by a vote of 1641 in the affirmative and 1846 in the negative. In the warrant for the special town meeting held May 26th, the following article appeared: "Article 10. To see if the town will make any recommendation to the Selectmen with reference to granting a license for a moving picture theatre." When this article was reached, it was voted: "That consideration of Article 10 be indefinitely postponed." Thereafter upon petitions duly filed, the Selectmen called a referendum meeting for the purpose of enabling the voters at large to determine the questions involved in the two votes passed at the meeting of May 26th relating to the taking of land for and the construction of a schoolhouse. A petition was also filed asking that "the question involved in said Article 10 in the warrant" be so submitted, after careful consideration of which and upon advice of the Town Counsel, the Selectmen decided that they could not properly do that which the petitioners asked whereupon the petition for mandamus above referred to was filed.

The prayer of the petition was that the Selectmen be commanded to submit to the voters at large at a special town meeting about to be called by them, the question contained in Article 10 in the warrant for the special representative town meeting held on said May 26, 1930 and commanding said respondents to have printed on the ballot at said special meeting at large the question contained in said Article 10 of the warrant.

One of the several reasons set forth in the answer of the Selectmen for denial of the writ and considered and commented on by the Court, was that it is not within the province of the voters of a town to direct or to make any recommendations to the Selectmen with reference to the granting of licenses, and it would therefore have been futile to submit the question to the voters at large. This point was not stressed and in reference to the proposition that no failure of justice would result, it was explained that the Selectmen had been not only willing but desirous of ascertaining the will of the voters and approved of the question being put to the voters at the annual meeting.

The points chiefly argued and relied upon were that the question which the petitioner sought to have submitted to the voters at large was not a question involved in any "final vote", "passing or rejecting a measure" within the meaning of section 8 of Chapter 167 of the Acts of 1928, and that it would have been futile to submit to the voters at large for determination the only vote passed under the article in question, which was a vote to indefinitely postpone consideration of the article and it was argued that to place the question upon the ballot for the June meeting would be of no effect for the article itself did not constitute any question which could be submitted. It was a mere abstract or head of a proposition to be laid before the voters for their consideration and action. The town meeting members voted to take no action and they took no action, and no one could say in what form or with what qualifications or restrictions a motion might have been put under the article if it had been taken up.

**Land Court**

Sarah R. McFayden, Petitioner
Arthur Bell Colgate, Petitioner
Joseph C. Kennedy, Petitioner

These were petitions for registration of the petitioners' title to land. Reports as to street lines, building lines and public rights were received from the Town Engineer, the papers examined and the necessary action taken so that such of said rights as existed were recognized in the decrees.

**Trustee Process** The Town has been summoned as trustee in twenty-three actions against town employees, an increase of three over the previous year. Answers were filed on behalf of the treasurer in such of the cases as were entered and the treasurer has been advised as to his action in all of them.

**Land Takings** The titles to the land bordering the Aberjona River between Cross Street and Main Street, authorized at the last annual meeting to be taken for park purposes, were examined as well as titles to all of the land flowed by the river in this location. Assistance was given the Park Board in making the taking; necessary orders, deeds and releases were prepared and recorded and through the efficient co-operation of the Chairman of the Park Commissioners and the Town Engineer the right was obtained from all owners of land flowed by the stream to change its course and divert its flow from their land, together with the easement to enter upon their land for the purpose of filling, grading and improving without the payment of $1.00 in damages. Title to the park land is duly vested in the town and it has now the legal right to change the course of the stream in accordance with the plan of the Waterways Improvement Committee.

**Applications for Billboard Permits** In 1929, against the objections of your board, the Department of Public Works granted John Donnelly & Sons a permit to erect and maintain a bill board on Loring Avenue near the corner of Swanton Street. The license expired July first and the billboard was thereafter erected. In September 1929 a hearing was held on the application for renewal and a similar hearing was held in October of this year, at which hearings it was contended that the billboard had no legal status and objection was made to the renewal of the permit. No decision has been made on either application for renewal but in the meantime, except for a few days in October last, the Donnelly Company has observed the agreement made by it to keep the billboard free from advertising matter until the legality of its maintenance has been determined.

In August 1929 John Donnelly & Sons applied to the Department of Public Works for a permit to erect a billboard on Cross Street "between Beggs Tannery and the stone quarry." Objections were filed on behalf of your board and the decision of the Department is withheld pending an opinion from the Attorney General.

In August 1930 John Donnelly & Sons applied to the Department of Public Works for a permit to erect a billboard 50 feet in length and 12 feet in height on the roof of the building at 535-537 Main Street in the business center. A detailed statement of objections on behalf of your board was filed and I take pleasure in reporting that the application has been disapproved.

**Legislation** While about the usual number of changes in legislation affecting municipalities in general were made by the General Court in the year 1930, no legislation directly affecting the town was passed except the act providing for a bath house at Sandy Beach which bids fair to be disposed of in a manner satisfactory to those who objected thereto.

The general duties of the Town Counsel have been attended to as in former years. The various boards, officers, departments and committees have been advised from time to time, collections have been made, claims against the town have been investigated and liability denied, except in two cases, which appearing meritorious were settled for $29.

The numerous town meetings held during the year have required considerable work and attention and the referendum in May, being the first in our history, and with but few exceptions the first town referendum in the Commonwealth, involved novel questions without the benefit of precedents for guidance. I believe however that the method which we have adopted is legally proper and efficiently simple and free from the confusing features of the state referendum to enable the voters to act intelligently upon the questions submitted to them.

Respectfully submitted,
ADDISON R. PIKE

Chief William H. Rogers was promoted to Chief September 9, 1930.

John H. Noonan and Edward W. O'Connell were promoted to the rank of Sergeant December 30, 1930.

## RECOMMENDATIONS

I recommend the installation of the Telotype machine in the Police Station. Few citizens have any knowledge of the importance of this new invention of private communication and this machine is recognized today as a necessity in a modern Police Department. 21 machines are in use in the City of Boston and 25 Suburban cities and towns beside the Metropolitan and State Police have them. Today the automobile plays an important part in most crimes and in the event of a robbery, hold-up, stolen automobile, etc. messages that would have to be sent individually over the telephone to each station are sent and received instantly on this machine so that all avenues of escape can be covered. Cities in Massachusetts as far west as Worcester and Springfield are in this hook-up.

## IN MEMORIAN

I believe that tribute should here be paid to the memory of our late Chief, William R. McIntosh, who died on May 26, 1930 after having served the Town as Chief of Police since October 1, 1897; nearly thirty-three years of faithful service to the town.

His sterling character, efficiency, loyalty, knowledge, and outstanding police ability were always admired by all the men of the Department, as well as by all those who came in contact with him.

He was beloved by all and remains in our memory.

## IN MEMORIAM

On June 3rd, 1930, James V. O'Connell, a member of this department for over 24 years, died at his home after a long illness. Mr. O'Connell was born in Winchester February 1, 1867 and was appointed to the Police Department June 1, 1902. He was pensioned on July 1, 1926 owing to ill health. Mr. O'Connell was one of Winchester's oldest police officers and was one of the best liked officers on the department. He was an efficient hard-working patrolman, an excellent citizen and a credit to the Police Department.

Respectfully submitted,
WILLIAM H. ROGERS

## REPORT OF THE KEEPER OF THE LOCKUP

Winchester, Massachusetts

*To the Board of Selectmen,*
*Gentlemen:*

I respectfully submit my report as Lock-up Keeper for the year 1930:

Number of persons confined pending Court proceedings 297, of this number 131 was prisoners locked-up for the City of Woburn, Massachusetts.

Respectfully submitted,
WILLIAM H. ROGERS
*Keeper of the Lock-up*

## REPORT OF THE CHIEF OF THE FIRE DEPARTMENT

December 31, 1930

*Board of Selectmen,*
*Gentlemen:*

I submit the following report of the Fire Department for the year ending December 31, 1930, with recommendations for the ensuing year.

The Department has answered 374 alarms for fires the past year all of which were extinguished with small loss. In addition we were called on for assistance on 22 occasions for various reasons other than fires.

While the extreme dry weather the past year was the cause for the increase in the number of alarms, still we have altogether too many grass fires set by children and by the careless use of incinerators. People using the open type of incinerator should be more careful about setting fires in them on windy days, and also they should never be set on dry grass. We have had a number of fires from this cause that could have been prevented, and everybody should also remember that a permit is necessary for an out-of-door fire, and no permit can be granted on a windy day.

In extinguishing fires the Department laid 39,100 feet of hose; 9500 feet of chemical hose; raised 1248 feet of ladders; used 2214 gallons of chemical, and traveled 892.7 miles.

## MANUAL FORCE

The manual force consists of seventeen permanent men: Chief, Deputy Chief, Captian and fourteen privates, and also twenty call men. Our permanent force should be increased by the addition of five men the coming year, and as it seems impossible to get a list established to draw from I recommend that the examination for privates be opened up to the whole State. We have had money appropriated for men several times in the past with no one on the list. If we cannot get any men in this Town who can pass the examination we should open it to the State so as to have a waiting list to draw from when men are to be appointed.

The apparatus is not properly manned when it is answering an alarm with a lone driver. There should be men enough to properly man an engine company and a ladder company, so when we arrive at a fire we may get the apparatus to work quickly. The majority of our fires are in the day time and there are only 4¼ hours between 6.15 a.m. and 8.15 p.m. when we have extra men to send on the apparatus due to meal hours. Owing to the failure of the system which we had when two alarms were sounded simultaneously it has been found necessary to leave a man in the station at all times, and this takes a man from fire duty. It has also become necessary to put a man on Fire Prevention work, inspecting all public, factory and mercantile buildings, and this work together with keeping records of inspections, and taking care of all correspondence incidental to the work will take all the time of another man. This Department has not kept pace with the growth of the Town in man power having only 4 more men than we had thirty years ago. No other department in the Town can show so slight an increase and thirty years ago we had 41 alarms during the year, while last year we answered a total of 396 calls. We should appoint men as young as possible as we have some now that could be placed on the pension list in the near future to good advantage to the Town. Another good feature of having permanent men enough to man two pieces of apparatus is that we could cut out the street alarm which notifies the country around us for ten miles in every direction that we have a fire, and save the blocking of the streets with sight-seers that care nothing for life or property so long as they can get close to the fire.

## APPARATUS

The apparatus is all in good running condition at the present time. It will be necessary to retire some of the cars the coming year. The Ladder Truck, Engine 1 and the Fire Alarm car should be painted.

## HOSE

No hose was purchased the past year. All hose was tested to 200 pounds pressure and found in good condition except the lot purchased in 1917 which showed leaks at the couplings. I believe this should be replaced together with hose purchased in 1918 and 1919. We have been using Underwriters Labelled Hose since 1912 and find the life of it is from ten to twelve years. It is unsafe in my judgment to keep it in service any longer, as while it might stand our hydrant pressure it would fail on a pump line, and poor hose at a fire is worse than no hose at all. Our facilities for drying hose are not of the best and it is necessary for that reason to carry a good supply to insure dry hose for reloading the apparatus, as wet hose means trouble and loss to the Town. Hose is not as expensive as some think it is. It costs at the present time about 74 cts. per foot or $37. per length of fifty feet, and lasts on an average of ten years, which is $3.70 per year or about 1c per day for each 50-foot length, which surely is cheap insurance, and when it is unfit for Fire Department work it is turned over to the Water and Sewer Departments where it is used until it is worthless. This saves these departments from buying new hose which in turn is a substantial saving to the Town.

## FIRE ALARM

The fire alarm system is in good working order. Wires were extended to the Dunster Lane section the past year and boxes installed at the junction of Ridge and High streets, and at the entrance to Dunster Lane. I have a petition from the residents of the Hill section for these boxes as well as for another box at the Henderson Farm on the Woburn end of Ridge Street. The system should be extended in practically all parts of the Town, but I believe before this is done we should re-number the boxes to care for future installations. It will have to be done some time and it will never be done any cheaper than at the present. Extensions to Sargent Road, Oneida Circle and Woodside Road are recommended this year. A modern transmitter should be purchased this year.

## BUILDING

Considerable work will have to be done on the building and building equipment this year. The boilers will need new smoke pipes and dampers; coal bins rebuilt; painting on first and second floors; and room equipment repaired. Steel lockers and cabinets for storage should be purchased, and the Patrol Desk should be enclosed.

The building is much too small for our needs and I believe an extension should be built on the rear to be used for storage and a repair shop.

## MECHANICIAN

We should have a mechanic to care for the apparatus. We have eight machines and should have a man to keep them in good running order at all times. There is considerable work to be done throughout the year in keeping the equipment as well as the apparatus in good shape, and a good all-around man could be used to good advantage. It is also necessary to have a man that thoroughly understands automobiles to break in new men that are appointed. It takes time for a man to familiarize himself with the different machines, even with a good instructor.

## DRILL TOWER

I renew my recommendation of previous years that we build a Drill Tower. Many cities and towns are establishing drill towers where men can be trained in the proper use and handling of apparatus and appliances necessary in the present-day Fire Department. Through the kindness of Chief Daniel B. Tierney of the Arlington Fire Department we were permitted to send two men to a one-month's course of training on the Drill Tower owned by the Arlington Department. A vast improvement was noted in the physical condition of these men at the end of the course. It is very evident that the only way to keep firemen in good physical condition is with a drill tower where daily drilling in the proper use of appliances may be held. The cost is not large considering the benefits derived. Constant drilling means that men are as good physically at 60 as they were at 21. We read about these great specialists in foreign countries where by the use of the so-called "monkey glands" a man would be young at 90, but his condition would have nothing on our firemen if we had a drill tower where constant drilling would keep men in such fine physical condition that when they arrive at the pension age you would have to shoot them to get rid of them.

## GROUNDS

The grounds in the rear of the Station, once a beauty spot, have been transformed through the parking of cars to a mudhole. These cars interfere with us in our practice work, as the owners do not care where or how they are parked. Recently a wrecking car had to be hired to remove a parked car which was locked, so that coal could be delivered to the bins. I believe this yard should be fenced in, and a curb also laid on the east side to protect the building from trucking in this driveway.

Respectively submitted,
DAVID H. DeCOURCY
*Chief of Fire Department*

## REPORT OF THE SEALER OF WEIGHTS AND MEASURES FOR 1930

Winchester, Mass., Dec. 31, 1930

*To the Board of Selectmen,*
*Winchester, Mass.*
*Gentlemen:*

During the annual survey of weights and measures and the checking up of pumps, meters and other measuring units, there were eliminated or condemned 30 scales, liquid measures and pumps. It was also necessary to adjust 137 scales and other measuring devices before sealing.

Meters, operated by electricity, are being rapidly installed on gasoline pumps and these are a decided improvement over the old type of pump. These meters deliver the gasoline more efficiently and are very accurate in measurement, thus insuring satisfaction to the purchaser.

This Department has frequently warned the public that it is necessary when purchasing gasoline to check up on the visi guage by ascertaining whether or not gasoline shows in the glass. If the purchaser is careless in this respect, he may receive short measure. This gauge is located on the top of the pump on the pipe line coming from the gasoline tank. Its function is to warn the purchaser or the operator that the gasoline has leaked through the foot valve back into the tank leaving the pipe line from the pump to the tank empty which means that when this pipe is refilled, the purchaser will be short-measured.

During the year a large number of packages were reweighed and the weight marked on the package rechecked, packages ready for delivery were also checked and coal wagons were intercepted and the loads reweighed. While some shortages were found, they were not serious and were caused by carelessness.

It was found necessary during the year to purchase additional metric and apothecary weights for the testing of druggists weights. The old avoirdupois weights used for our working equipment were replaced. On the whole our equipment is in good shape, never-the-less it will be necessary from time to time to make replacements.

## REPORT OF THE BUILDING COMMISSIONER

December 31, 1930

*Board of Selectmen,*
*Winchester, Mass.*
*Gentlemen:*

I herewith submit the following report of the activities of the Building Department for the year 1930.

This year has been an unusually active one notwithstanding the industrial depression. While business in general has suffered, building in Winchester has continued on almost the same high level reached in 1928 when the estimated cost of buildings was the highest in the history of the Department. In 1928 the estimated cost was $1,200,000., while this year the total for all construction will reach $1,180,365.

This year there were erected 85 single dwellings and one two-family house making a total of 86 as against 94 single dwellings for the previous year. The erection of two-family houses in Winchester appears to be waning. Last year not a two-family house was erected and this year, but one permit was granted for this type of house.

The cost of non-taxable or public buildings will total approximately $154,825.—the erection of a new public library accounting for this large figure.

A better class of builder is now operating and the houses are of better design and workmanship with the result that the undeveloped sections of the town are developing satisfactorily. As an illustration of this, in May of this year, the State Board of Labor and Industries reported the issuance of permits for eight one-family houses in Winchester with an estimated cost of $148,000. against eighteen in a nearby town, the estimate cost of which was $143,000. While this is not an accurate indication, it may be significant of the future trend of building in Winchester.

Once again the Building Law regulations prevented what might have been a very serious fire in a dwelling. Stops between the partitions and other places not only prove their worth by preventing fires, but also prevent rats, mice, vermin and draughts from entering the house. The benefits derived from this regulation emphasize the advisability of requiring fire stops on all floors and air passages.

Last year we suggested some changes and additions to the Building, Plumbing and Gas regulations. While we were ready with our recommendations for the consideration by the Town Meeting members, we were obliged to withdraw them because of other matters which were more pressing. Yet I would call the attention of house-owners to a very serious condition which may arise from the non-use of a simple, inexpensive attachment to gas heaters which, if used, would automatically cut off the flow of gas and prevent gas poisoning from accidentally opening cocks. This is also true of hot water boiler systems which accidentally explode causing great damage to property and endangering life. During the year there were at least three of these explosions in nearby towns which might have been averted if the proper regulations had been in force when these boilers were installed. While in the past we have experienced this difficulty with boilers, we have offset the danger by compelling the installation of safety valves of a fusible metal type which, while effective, have proved to be very faulty by reason of householders and others tampering with them. At the present time there is no argument that can be advanced against the adoption of a regulation requiring the installation of proper safety valves on domestic, hot-water copper boilers. I strongly urge the adoption of such a regulation in the near future.

Each year we are confronted with the threatened erection of large, flaring bill boards on the roofs of buildings and vacant lots. The managers of these firms are ever on the alert for opportunities to erect these annoyances which certainly cheapen and destroy the results of community planning. Not only are they offensive in appearance, but they steal the sunlight and air from little children living in apartments near these unsightly monstrosities, thus affecting their health. Further damage may be caused by windstorms blowing the boards onto the street and so endangering the lives of pedestrians. The only action possible to prevent the erection of these boards is a protest from the Board of Selectmen to the State Department of Public Works, and this measure does not always prove effective.

Another matter of State control is the Garage Rules and Regulations made by the Department of Public Safety which invariably change with the advent of each new Fire Marshall

A recent important change in the requirement of first class construction for any garage which is a part of a dwelling. This increases the cost of construction, interferes with the proper design and accomplishes very little in the way of fire prevention. Statistics of fire losses for garages are very low and do not call for a radical change such as this.

It is my opinion that we have too much State interference in the matters of bill boards and garage construction which could be regulated more effectively by the individual town.

In the past year, this Department has issued and approved a larger number of wiring, gas and plumbing permits than in former years. These functions of the Building Department have been given much care as the safety of the householder depends to a large extent upon careful inspection. Mr. MacDonald, in charge of wire and gas regulations, and Miss Gillespie, the clerk, have ably assisted in this work.

## REPORT OF THE INSPECTOR OF WIRES

*To the Building Commissioner,*
*Dear Sir:*

I wish to submit the following report as Inspector of Wires for the year ending December 31, 1930.

The total number of permits issued to do electrical work was 703, an increase of approximately seven percent over 1929. These permits were issued for the following installations:

| | |
|---|---|
| Electric Ranges | 15 |
| Filling Stations | 2 |
| Garages | 27 |
| New Houses | 78 |
| Old Houses Completely Wired | 21 |
| Oil Heaters | 139 |
| Electric Refrigerators | 48 |
| Traffic Beacons | 2 |
| School Buildings | 1 |
| Miscellaneous permits for additional wiring for electric heater, motors, lights, etc | 370 |

A total number of 1323 inspections were made.

156 permits were issued to the Edison Electric Illuminating Company to install meters and turn on current.

During the year 1929, I found that considerable confusion resulted from the fact that this town did not have any printed wiring regulations. Contractors coming from other towns were continually complaining about this handicap, and many arguments were advanced to show the need of having but one interpretation of the National Electrical Code.

It appeared that the most practical thing to do, was to adopt the regulations used in nearly all the other communities of Greater Boston. These regulations are in reality nothing more than one interpretation of the National Electrical Code, with such additions and corrections as were deemed necessary, and were promulgated in an attempt to have uniform regulations in the various towns.

Early in 1930 a number of these regulations were printed. There was very little opposition to this procedure except by a few disgruntled individuals who never could be satisfied, and who care very little whether they do a good grade of work or not. Many individuals are always looking for an opportunity to evade a responsibility, especially today when competition is so keen.

However, it is with considerable satisfaction that I report that the quality of work done in this town at present is second to none, and that the cost of construction has not been increased.

During the year 1930, ninety-one communications were received from the Board of Selectmen regarding new pole locations. The plans for these locations are carefully checked by the Town Engineer and myself. Many times it has been necessary for us to attend the hearings incident to the granting of such locations, so that we might explain many unusual circumstances which are continually arising. Also, we have had to confer with individuals early in the morning and late at night, this being the only time available to them, in an attempt to determine locations satisfactory to all concerned.

It is difficult for one not familiar with this phase of the work, to fully appreciate the amount of work we do in endeavoring to locate poles so that they will be as inconspicious as possible. Most of the time we are successful, but sometimes it does seem as though it is impossible to satisfy every one. However, we usually enjoy the cooperation of all concerned.

The wooden pole which was located in the center at the corner of Mt. Vernon Street and Railroad Avenue, has been removed. This was replaced by an iron pole which materially changes the complexion of this corner.

I have examined over two hundred poles, finding approximately fifty that were unfit for further service. Many of these are being replaced at present.

It was clearly indicated by the condition of some of these poles that they had not been inspected for some time. Some companies are rather dilatory in this respect. I have recently received a communication from the New England Telegraph and Telephone Company informing me that they would inspect all the poles of their system in the Spring of 1931, as I requested.

In general, the condition of the wires in the town has been materially improved during 1930. In numerous streets cables have been run and a lot of loose, unsightly wires have been removed. Obviously this work requires considerable time and sometimes it appears as though things were at a standstill, when they are actually progressing satisfactorily.

Many times during the year information and advice is solicited in regard to different matters involving the use of electrical equipment. Perhaps the most outstanding example of such was the assistance rendered Mr. Roop in the installation of the underground conduits in Wedgemere Avenue. The Board of Selectmen, the Town Engineer and myself rendered every assistance, which, coupled with the desire of the owner to eliminate all unsightly poles and wires, made this system possible.

It is with considerable satisfaction that I report that during the year only one pole fell, and that this was the result of a combination of unusual circumstances. Also, I am pleased to report that during the year 1930 no fires were reported to have started from defective wiring.

In making this report no attempt is made to give a detailed account of all the work done during the year, as such would be rather lengthy. Only items of major importance are considered.

Yours very truly,
WILLIAM B. MacDONALD
*Inspector of Wires*

## REPORT OF THE INSPECTOR OF ANIMALS

December 29, 1930

*Board of Selectmen,*
*Gentlemen:*

During the inspection of animals the past year I found one heifer affected with tuberculosis. She was destroyed and the place disinfected. The other cattle were healthy and the condition of housing satisfactory.

I examined two cows which were being brought into the Town from out of the State and one horse.

I made 103 calls to quarantine dogs that had bitten people, to release dogs quarantined and to observe dogs in contact with other dogs that had bitten people.

I found two positive cases of rabies. I took these dogs to the Harvard Medical School, and had the heads examined and the cases were positive.

One other dog that had not bitten any one I also had examined. The report came back "probably a case of rabies". The examination showed symptoms that are present in the brain in cases of rabies. It was not a positive case but was diagnosed as "probably a case".

I made and answered 136 telephone calls in regard to these cases.

Yours very truly,
Wm. BUCKLEY, M. D. V.
*Inspector of Animals*

## REPORT OF THE REGISTRARS OF VOTERS FOR THE YEAR 1930

The Registrars of Voters herewith submit the following table showing the number of registered voters in the six Precincts on January 1, 1930 and December 31, 1930:

| | Jan. 1, 1930 | Dec. 31, 1930 |
|---|---|---|
| Precinct 1 | 974 | 1059 |
| Precinct 2 | 924 | 940 |
| Precinct 3 | 984 | 1047 |
| Precinct 4 | 891 | 956 |
| Precinct 5 | 894 | 892 |
| Precinct 6 | 941 | 970 |
| Total | 5608 | 5864 |

## REPORT OF THE WORKMEN'S COMPENSATION AGENT

December 31, 1930

*Board of Selectmen,*

*Gentlemen:*

Report of the Compensation Agent for the year 1930:

| | |
|---|---|
| Total amount spent | $2,114.45 |

Expended as follows:

| | |
|---|---|
| Compensation payments | $1,093.12 |
| Medical | 718.89 |
| Hospital | 84.00 |
| Salary of Agent | 200.00 |
| Miscellaneous | 18.44 |

Of the amount $231.85 was paid for cases carried over from 1929.

There were 51 accidents reported classified:

| | |
|---|---|
| Compensation, Hospital and Medical | 1 |
| Compensation and Medical | 10 |
| Hospital and Medical | 2 |
| Medical | 32 |
| First Aid | 2 |
| Referred to others to settle | 2 |
| Doubtful | 2 |

Four discontinuances applied for and allowed.

One Lump Sum settlement approved by the Board.

Four employees, after receiving compensation, appealed for hearings. Three were settled, one is now pending.

Suggest an appropriation of $2600.00 for the year 1931.

Yours respectfully,

HUGH J. GRIMES

*Compensation Agent*

## REPORT OF THE BOARD OF APPEAL

December 10, 1930

*To the Honorable Board of Selectmen*
*of the Town of Winchester:*

The Board of Appeal herewith submits its annual report.

A slight reduction in the volume of business is noticeable in the work of the Board this year, largely due to a certain stagnation in the building industry. It is also partly due to the fact that past rulings of a general nature by this Board have cleared up points formerly doubtful, and given less occasion for requests for interpretation of our building and zoning laws.

The laws appear to be somewhat better understood by those seeking permits to build. Nine (9) cases have been decided during the year after formal hearings. Other important matters, some fifteen (15) in number, have been presented to us without requests or proper setting for such hearings, but have received our careful attention and consideration. Such instances frequently involve personal inspection of property, require close contact with the Building Department, and occasional consultation with the town counsel; and by cooperating with them in an advisory capacity, it has been possible for us to be of much practical assistance in the matter of applications for building permits.

Frequent correspondence and many personal calls come to the members of the Board, but these things, while voluminous and consuming much time, have no place other than mere passing mention in the pages of annual reports.

The Board extends its thanks to James S. Allen, Esquire, and to Mr. Edward R. Wait for services rendered as substitute members during the year.

Mr. Vinal, after a service of long years and great value to the town, recently resigned his office as a member of this Board.

His recognized ability, his sense of justice and his cheerful response to the demands of his office, will always be held in grateful remembrance by his fellow members. Mr. Edward R. Wait, a well known Winchester architect, has been appointed by the Selectmen to fill the vacancy, and has accepted the position for a term expiring April 1, 1933.

The Board appreciates the opportunity given to it during the year by the Selectmen to send a representative to a citizens' meeting and tell the assembly something of its work and problems, as well as to learn those of other Boards and committees charged with the conduct of town affairrs.

Respectfully submitted,
RALPH W. E. HOPPER
GEORGE CHANDLER COIT
*For the Board of Appeal*

# REPORT OF THE PLANNING BOARD

January 2, 1931

The law of the Commonwealth requires every Planning Board —"to make a report annually . . . to the annual town meeting, giving information regarding the condition of the town and any plans or proposal for its development and estimates of the cost thereof."

## DWELLING HOUSE CONSTRUCTION

It is surprising to find that in spite of the business depression during the past year, there has been little falling off in the construction of dwelling houses in Winchester. In the year 1929 there were issued 95 permits for the construction of dwelling houses, (not including an apartment house.) There were 86 permits for dwellings granted in 1930. It is also surprising to find that although there were nine less permits issued in 1930 than in 1929, the total estimated cost of the 86 houses in 1930 was $54,450 more than the total estimated cost of the 95 houses in 1929. The average cost per house in 1930 was approximately $10,000; in 1929, approximately $8,500. In other words, the 1930 average was $1,500 in excess of the 1929 average.

The tendency in Winchester the past year toward the construction of more expensive dwelling houses is evidence of the growing conviction on the part of real estate operators and builders that in a high grade residential community it is better business to promote a high grade development.

To some extent, at least, our zoning by-law, our minimum-size lot and uniform set-back requirements and our policy with respect to Board of Survey streets encourage more expensive houses and larger grounds by giving assurance to prospective builders and purchasers that residential areas will not be invaded by misplaced business blocks nor cut up into building lots smaller in size than the prescribed minimum nor laid out with streets of inadequate width and improper termini.

During 1930 there was a permit issued for only one two-family house. None were built in 1929. The single house is plainly in favor in Winchester. Substantial areas in the general residence districts, where double houses may be constructed, are still available, but the major portion of all undeveloped residential territory is in the single residence districts.

## ZONING

Zoning throughout the country is increasing. It is favored and upheld again and again by the Courts. In our own State the progress of zoning continues; each year additional towns and cities adopt it. The division of Housing & Planning of the State Department of Public Welfare reports that on January 1, 1931, zoning ordinances or by-laws were in force in 70 cities and towns, containing 72% of the total population of the State.

The Winchester zoning by-law, passed in 1924, establishes zones or districts, provides what buildings and structures may be constructed therein and restricts or regulates the use that may be made of such buildings and structures. Broadly stated, of course, the purpose is to preserve the character of neighborhoods essentially residential, and to confine business uses to business districts and industrial uses to industrial districts. That the by-law has been of inestimable value to us during a period of rapid growth is obvious. But the Winchester by-law does not purport to restrict the use of land as distinguished from buildings on the land. As far as the by-law is concerned, a landowner lawfully may make any use of his land he pleases, if he erects no building or structure in connection with the use. Vacant land anywhere can be used for a business purpose, as long as no building or structure is constructed in connection with the business carried on there. For example, there is nothing in the by-law to prohibit the owner of a vacant lot of land in the finest residential section from using it commercially for a miniature golf course, out-of-door parking space, gypsy encampment or gasoline supply pump. The subject is now brought forcibly to attention by the multiplication of commercial miniature golf courses. These are essentially business ventures and should not be permitted in residential districts. The Board of Selectmen now have some measure of control over them by refusing to license them as public amusements, but in our opinion they should be brought within the positive regulation of the zoning by-law.

An amendment to the Winchester by-law intended to correct this defect, by forbidding in general the use for business purposes of vacant land in the residential districts, was recommended by this Board to the town meeting in 1928. At the adjourned session held on June 14th, in that year, the motion received 184 affirmative votes to 140 negative votes and, failing to receive the necessary two-thirds, was lost. We believe the subject should be again submitted to the town meeting, and for this purpose intend to request the placing of an article in the warrant for the March meeting, with the hope that affirmative action will follow.

The proposed amendment no doubt would have been included in the original zoning by-law but at the time of its adoption the State law did not permit it. The need of such legislation was promptly recognized and the necessary enabling act was passed by the General Court in 1925 (Acts of 1925, Chapter 116). Since then many towns and cities have made changes in their ordinances or by-laws to extend their scope in accordance with the recommendations which we make for Winchester. Among the municipalities that by ordinance or by-law regulate the use of premises, as well as buildings, are Lexington, Needham, Walpole, Medford Fairhaven, Falmouth, Gloucester, Lincoln and Wellesley.

## BUILDING LINES

Fewer building lines are now being established by vote at the town meeting, than in some former years. Such lines have been already generally established on the older streets where conditions seemed to warrant or require it. As to new streets, from time to time accepted by the town, it often happens that the uniform set-back of 20 feet required by the 1928 amendment to the building law, which is applicable to all houses constructed in the residential districts, seems sufficient, but if in the acceptance of a new street a wider set-back seems desirable, a specific building line to be established by vote of the town is recommended. For example, as to the portion of Salisbury Street to be submitted to the town for acceptance as a public way at the next annual meeting, the set-back of 20 feet required by the amendment to the building law appears inadequate, and specific building lines, 25 feet from the street lines, have been recommended.

## ROUNDING CORNERS

Increasing accident hazard in the use of the public ways by motor vehicles makes especially important the rounding of street corners. The Planning Board advocates this as a policy in the laying out of streets under the Board of Survey Act and in their acceptance by the town as public ways. The curve at the curb line preferably should have a radius of at least 30 feet. This obviously facilitates the movement of vehicular traffic and diminishes the danger which is often involved when a motor vehicle enters or leaves a line of traffic. Among the corners recently recommended for rounding are the following:—Wedge Pond Road at Vine Street; Woodside Road at Wildwood Street; Central Street at its turn; Lawson Road at Highland Ave.

## SIDEWALKS

Winchester is generally well provided with excellent sidewalks. Their desirability on both sides of streets in residential neighborhoods we wish again to emphasize. They not only promote public convenience; they are becoming more and more essential to public safety. They plainly enhance the value and marketability of the houses and building lots abutting on them. These facts are kept in mind when existing streets are accepted as public ways and adequate width for sidewalks on both sides recommended as far as consistent with conditions on the ground. Where new residential territory is laid out with building lots and streets under the Board of Survey Act, it is the practice of the

Planning Board to recommend streets of a minimum width of forty feet, so that, after the construction of a roadway twenty-eight feet wide, there is left six feet on each side for a sidewalk and grass-plot. Greater width of street of course is often provided where necessary to co-ordinate with existing streets, or where fairly required by the character of the development.

## SITE FOR NEW SCHOOL BUILDING

The planning Board approves as the site for the proposed new school building the lot situated between Main Street and the Parkway, which has been already recommended by Mr. Arthur A. Shurcliff, a recognized authority on planning. It will constitute an important addition to the civic centre, forming a connecting link between Manchester Field and the Parkway on the west and the high school, war memorial and Johnson Plot on the east. Its value from the standpoint of civic planning will become even more apparent when at some future date the triangular lot south of the high school has been acquired for an addition to the high school building and for its southerly lawn.

## VISIT TO WINCHESTER BY MASSACHUSETTS PLANNING BOARDS

The 17th annual conference of the Massachusetts Planning Boards last year was held in Boston. On October 1st, 1930, in connection with a visit to points of interest in Boston, 102 men and women, members of Planning Boards from different parts of the State, visited Winchester. After having luncheon at the Winchester Country Club, the group was taken in sight-seeing buses over a ten-mile route, laid out for the purpose of showing points of interest in relation to zoning and planning. The route included Arlington Street, Swan Road, Everett Ave., Central and Church Streets, Wedgemere Ave., Wildwood, Palmer, Main and Forest Streets and Highland Ave. It was a compliment to Winchester that it was among the few places chosen for the study of town planning by the case method and for observation of its results in the field. The visitors expressed especial interest in our extensive establishment of building lines, our minimum-size building lot and uniform set-back requirements, our parks and reserved spaces, and abundance of shade trees. They commented repeatedly on Winchester's scenic beauty and attractiveness.

# REPORT OF PARK COMMISSIONERS

The past year has been an extremely active one for this department. Because of the Tercentenary Celebration and the large number of visitors passing through our Town, we have tried to show the Park areas at their best. Our numerous gardens were especially beautiful and excited much favorable comment.

A great deal of attention was given to the care of Manchester Field, and to the tennis courts at Palmer Street and Loring Ave. Tennis is a popular recreation in Winchester, and we have tried to keep the courts in the best possible condition, although at times it has taxed the resources of this department.

Manchester Field is used by the High and Wadleigh Schools, and during the School year, when the weather permits, this field is in constant demand. During the spring and fall school terms very little opportunity for growing is given to the grass and at times the field has been in poor condition for the High School games. It is our intention this coming spring to resurface the base-ball diamond as this has not been done for quite a few seasons.

The tennis courts at Leonard Field have not been kept in the best of condition, but this was only because we were unable, with the help available to give these courts the attention they require. We are planning to put the courts into proper condition early in the spring and shall endeavor to keep them as well as our other courts are kept.

The grading of the new Park area at the corner of Lake and Main Streets has been completed, and early this spring will be sowed with grass and have shrubs put in. We believe this Park with the beautiful setting of Wedge Pond will become one of the show places of Winchester, and when completed will more than justify its expense.

The Town, and, especially this department, has suffered a distinct loss in the death, this past fall, of our Superintendent, Mr. Alexander MacDonald. He had served as Park Supt. for nearly fourteen years, and had much to do with making the Park system of Winchester a real asset to the Town. He was especially interested in flowers, and his flower beds on the Common, in which he took the greatest pride, were always the source of much praise.

We have appointed in his stead Mr. John Sherman, who has been a resident of Winchester for over thirty years, and whom we believe will be able to carry on the work of this department on the same high plane that has marked the work of Mr. MacDonald.

Our force of labor consists of a superintendent and four men who work through the entire year, with an additional force during the spring and summer months of five men.

# REPORT OF THE TREE WARDEN

With the exception of the elm leaf beetles and fall web worms, insect pests were less numerous the past season than for several years.

No brown tail webs were found.

The egg clusters of the Gypsy moths were found in considerable numbers on willow trees on the shores of Wedge Pond and also on willows near Mystic Lake and in small numbers scattered over town. We sprayed the elm beetles on seven days in July and August. The fall web worms are very unsightly hanging in large clusters to the topmost branches of a variety of trees, and while they do little real damage they require a lot of work to get them off tall trees. It took two hours of high climbing to get them off of one large hickory tree. Our men spent five days in August and September at this work.

Spraying for private estates was done as usual and also trimming and cutting out dead trees—the white birches have been dying out for several years.

We cut down forty-seven trees during the year, many of them for private owners and some for street improvements. We set out two-hundred Norway maples. A number of the street trees have been badly injured by automobiles and trucks, some of the smaller ones broken off and destroyed.

Electric light and telephone wires interfere in many places with the growth and shape of street trees, but as long as the wires are allowed overhead they will continue to do this damage.

I bought a new truck in December as the old one was worn out. All our equipment is now in good order.

## GENERAL REPORT

The 1930 rainfall was 33.48 inches which was 8 inches short of the average for this district. The summer and fall were very dry and the reservoirs were drawn down to the lowest point in their history.

In August the gate between the Middle and South Reservoirs was opened and six feet of the water was drawn from the Middle Reservoir into the South Reservoir. The Board felt that the rock basin of the south Reserovir would keep the water in better condition in the summer months. On December 31st, 1930 the reservoirs lacked 307,800,000 gallons of being full or about two-thirds short of their capacity.

If 1931 is another dry year there will probably be a shortage of water. The Board foreseeing this has connected the water system to the Metropolitan Supply through Stoneham and Arlington and can obtain a limited amount of water from this source. The average daily use of water was 903,565 gallons and the average daily yield of the water shed was only 677,296 gallons. This drew very severly on our reserve. The capacity of the reservoirs is about equal to the demand for water by the Town.

The usual forestry work has been carried on around the reservoirs. There were 12,000 Red pine trees planted this year to fill in the open spaces on the shores. The thinning of the hardwood trees has been continued and large spreading trees have been removed. About two-thirds of the hardwood trees have been cut and one-half of the watershed cleaned of all hardwood trees. The work of cutting brush will decrease as the pine trees make a cover over the ground. About 100 acres now need little or no attention. Wood has been sold to the value of $685.00. The policy of removing the hardwood trees will be continued.

The policing and protection of the reservoirs is carried on in an efficient manner by Mr. Edward F. Shea. Eight people were caught fishing, five bathing and fourteen lost children were cared for. During dry times a man is kept in the fire tower. Twelve fires were discovered, eight of which were on Metropolitan land. No large fire occurred on the town land.

About 3500 feet of brooks were dug out and cleaned to drain a number of marshy areas so that the water may run quickly to the reservoirs and not become discolored and stagnant. This work was done on recommendation of the State Department of Health.

In June a new well was made and a pump installed below the North Dam to save leakage from the North Reservoir. About 35,000 gallons of water per day is saved and pumped into the East Side High Service System.

A new shed was built at the Shop on Lake Street and a fence installed around the yard. The fence was finished between the Metropolitan Playground and the Reservoirs. The West Side High Service was enclosed by a wire fence.

A large amount of construction work was completed this year in an efficient manner under the supervision of our Superintendent, Mr. Harry W. Dotten.

A new system of records has been installed and is saving considerable time in the office work. The Water Works is in a good condition.

The most extensive work we have done in any particular section was in the area laying North of Wildwood St., in the Roop development, so called. In this section where four (4) streets have been laid out and constructed, and nine (9) dwellings constructed and connected, with a probability of about thirty (30) more dwellings being erected in the near future, we have laid about two thousand two hundred (2200) feet of sewer.

That part of Woodside Road which lays between Winter Pond and the street summit, and Chesterford Road West, and Chesterford Road East, could not be drained by means of gravity sewers without a very large expense for a long trunk line through land which could never be developed by building operations since the line would of necessity, pass through a part of Wildwood Cemetery. An added, and very important reason for not constructing the trunk line mentioned above was the fact that construction operations would require the excavation of a deep trench, hundreds of feet long, in solid rock. Therefore, your Board sought a way out of the difficulty, since it was thought very desirable that sewerage facilities be provided for the above named streets, this being the only single compact area in town not yet provided with sewerage. This was found by the installation of an ejector pump operated by electrical power in a large pit of concrete masonry constructed at the low point in Woodside Road just North of the Winter Pond bridge. The sewage produced by an ultimate population of thirty-five (35) or forty (40) families will flow to gravity to the receptacle in the receiving pit and be pumped from it through a force main to a manhole at the summit of Woodside Road, from whence it will flow by gravity to Pond St. and the main trunk line in Sylvester Ave. The sewage pump is not yet in operation, but the work of setting it up and preparing it for use is very near completion.

On a basis of 6700.20 feet of common sewers laid the average linear cost is $4,737 per foot.

## TAKINGS FOR SEWER PURPOSES

Takings were made this year in Chesterford Road East, Chesterford Road West, Dartmouth St., Drexel Ave., Leslie Road, Madison Ave. West, New Meadows Road, Wedgemere Ave. Extension and Yale Street and Fells Road.

## SEWER BETTERMENTS

Sewer Betterments were assessed to the amount of $24,529.49.

## HOUSE CONNECTIONS

W have made 120 house connections during the year, totaling 5956 feet in length or 1.128 miles, at an average cost of $1.67 per linear foot.

## OTHER WORK

We are called frequently to remove obstructions in house sewers. Attention is always promptly given to such requests. The expense incurred in doing this work is, for the most part, borne by the property owner.

## SEWER MAINTENANCE

Our entire system of public sewers totaling in excess of forty-one (41) miles as of April 1, 1930, has been inspected periodically, and thoroughly cleaned.

We have not had much trouble during the past twelve months from flooding of our mains in low areas by the over-charged Metropolitan trunk lines into which we deposit our sewage. A careful watch is being kept of such flooding back as may occur, and such remedies as can be applied are used to minimize as far as possible the annoyance caused by the flooding.

# REPORT OF THE CEMETERY COMMISSIONERS

The Board of Commissioners of Wildwood Cemetery submits the following report:

The most important part of our work this year was the laying out and grading of fifty new lots in the northeast section of the Cemetery. A new road has been laid out and graded to make access easy and this new development adds much to the appearance of this section.

This is a piece of work we have been anxious to do for several years, but money has been lacking, but with the approval of the Board of Selectmen we have expended a part of the Cemetery Fund for this purpose giving much needed work in this time of business depression and adding to the beauty of the hill top.

We were able to purchase a quantity of fine loam, six hundred loads of which were used in grading new and regrading old lots. Roads have been spread with oil, side hill paths have been relaid with cold patch and the general appearance of the Cemetery has been kept to a high standard. Evergreens have been set out and more young spruces, pines and hemlocks have been added to our nursery. The Tree Warden has helped us by trimming trees and shrubs.

# REPORT OF THE WATERWAYS IMPROVEMENT COMMITTEE

The most important object of the Waterways Improvement Committee is to purify the streams in Winchester. Until recently the waterways, which have always been so dominant a factor in our landscape, were almost wholly neglected. The steadily increasing accumulation of refuse which was allowed to contaminate them was almost unbelievable. The pleasant landscape effects artifically created in the immediate vicinity of the Center merely afforded a pretty setting for a turbid stream of reddish-yellow liquid in which no clean thing could live, and the sight of which was only less repulsive than its stench. During certain seasons this description is still substantially accurate.

Measured by the standards set by Nature in the clear rivers and famous lakes which gave this town its early name of "Waterfield", the purpose of this committee's work is obviously not one of advancement, but merely of restoration. Primarily it has the task of undoing, so far as possible, the mischief which for many years has deprived the town of its most precious birthright.

The first work of the committee is therefore to acquire ownership by the town of its streams and of a strip along either bank of sufficient width to prevent further pollution in Winchester, and also to facilitate the performance of the task of removing the refuse which has collected. We are assured by the State Board of Health that on performance of this task within our own borders it will effectively co-operate to eliminate the causes of pollution higher up the streams, and outside the limits of Winchester.

This work has steadily progressed. Horn Pond Brook is now owned by the town from Woburn to its outlet in Wedge Pond. The Aberjona River from Washington Street to Cross Street also belongs to the town. At a cost which apparently should not exceed $5000. during each of the next two years, we recommend that the town acquire the River from Cross Street to Judkins Pond, later dealing with its course between the Woburn line and Washington Street. When this is done the channel may be cleared, the flow of the stream liberated, and thereby the mosquito-infested marshes which now border some stretches of the river will be dried.

Russell Brook will then remain practically the only stream in Winchester not in control of the town. Because this stream is used in part for surface drainage, and because of the deplorable conditions along a portion of its course, the Town may think it well to deal with this waterway before completing the reclamation of the Aberjona River.

In 1928 the Waterways Committee, which proceeded the present Waterways Improvement Committee, submitted to the town an exhaustive and interesting study by Mr. Herbert J. Kellaway, a landscape architect, for possible development of the water courses of the town above the Center. This, however, outlined far more than a waterways project. Rather it was a comprehensive plan of town improvement, by relocation of streams and ponds, and by parks and ways. Possibly the town may ultimately adopt some such plan. Whether or not it is adopted, it has been and is of real and constant value. This committee, however, is not now concerned with anything approaching the complete realization of any project so elaborate or expensive.

We believe, as above stated, that by expenditure of comparatively modest sums each year for a very few years all of the streams in Winchester which now offend the senses and menace the health of its citizens can and should be controlled, purified, and thereby restored to something of their original attractiveness. That is our definite and immediate purpose. We recommend that the town make adequate provision for uninterrupted progress toward this goal. How far beyond this accomplishment the town will some time care to advance is a matter beyond the scope of our present service.

# REPORT OF THE BOARD OF PUBLIC WELFARE

The personnel of the Board has changed during the year. The departure of Mr. Stockton Raymond to another State was a great loss to the town and to our Board.

In January Mrs. J. F. Ryan was appointed to fill the vacancy caused by his resignation.

The expenditure of relief was distributed to the needy as follows: the sum of $8,892.78 to families dependent, because of the death, or ill health or irresponsibility of the father of the family; $2,698.10 to individuals dependent because of old age; $1,209.70 to the support of four children in foster homes, and part of the year, for one boy in the home of a relative; $818.89 for the expense of temporary ill health; and $4,125.69 to unemployed men, most of whom had dependents.

The following table of comparative figures shows the division of this relief for the years 1929 and 1930:

| | Unemployment | Mothers' Aid and Other Dependent Families | Old Age | Dependent Children | Ill Health |
|---|---|---|---|---|---|
| 1929 January | $143.67 | $724.59 | $376.86 | $225.70 | $16.00 |
| 1930 January | 386.91 | 771.10 | 254.00 | 20.00 | 53.35 |
| 1929 February | 187.36 | 765.42 | 266.50 | 20.00 | 16.00 |

| 1929 Total | $1,630.27 | $10.475.06 | 2871.34 | 1,348.55 | $451.85 |
| 1930 Toral | $4,125.69 | $8.892.78 | 2,698.10 | 1,209.70 | 818.89 |

There is shown a reduction in the amount of money spent in families where the mother is the head of the house, or the father entirely incapacitated by ill health. In ordinary times, this figure might have been still lower, for there were six young people old enough to earn a wage, but one of the boys was unable to secure any work and the other five young people have worked very irregularly. Five of these families have been given full support over a period of years and the Board had looked forward to the time when, through the efforts of their youth, they would become self-supporting, but the present period of depression is delaying that time.

For some years, under the leadership of the State, our Board has planned adequate relief for its long time cases, so that the mothers, instead of going out to daily jobs, might have the privilege of remaining in their homes and giving to their boys and girls that constant care and guidance all children need for the preparation of life. Now, there is concern that unemployment may destroy ambition and initiative and create indolence in our young people. We feel this is a matter so vital to the welfare of our youth that all townspeople should give it serious consideration and unite in efforts to secure employment for them.

The figures in the column under unemployment show the degree of involuntary unemployment in Winchester as the unemployment sought public relief. During January and the early part of February, the unemployed applied for financial assistance in increasing numbers. That unemployed citizens might have work and our Department be relieved somewhat of an increasing financial burden, late in January, work was opened by the Water and Sewer Board and the Highway Department.

Our table indicates that the demand for relief did not cease. We still had the non-citizen and his family. All work given was not full time work; wages were from $10.00 to $19.00 per week. Those families unable to plan weekly expenses within the amount earned, came to the Department's office to budget their accounts. In a number of instances, the Department was obliged to supplement with grocery and coal orders; after the first week or two, the Department was able to supply most of the clothing needed from its supply room, kept well stocked by Winchester citizens. The table indicates that as spring advanced, the unemployed men were able to obtain work, and during the summer the need for relief lessened, and but three families were seriously affected. The table does not indicate a serious condition during the fall months, but this was due largely to the action of the Special Town Meeting in October, appropriating an amount which allowed citizens with dependents to continue employment with town departments. As the year closed, the demand for aid increased again.

We wish, again, to acknowledge our appreciation of the very real value of the clothing and bedding brought to the office for our use in the work of the Department. One hundred fourteen individuals brought bundles of clothing, many of this number returning again and again with additional contributions; others have left bundles without leaving their names. Also, we are endebted for clothing to the Needle Work Guild, classes in the Wadleigh School, grades in the Mystic School, Troop 3, Boy Scouts, a general collection from the Winchester Public Schools by the Junior Red Cross and the E. P. H. Class of the First Baptist Sunday School. In addition to the clothing and bedding, we have received and placed cribs, beds with springs and mattresses, baby carriages and ice chests.

We are also very grateful to the Citizen's Community Relief Committee, a group consisting of a representative from each organization in the town which cared for the families of our Department both at Thanksgiving and Christmas time.

Again we wish to urge larger quarters for the growing work of our Department. The need for a proper and comfortable waiting room for the clients seeking interviews is very serious.

# REPORT OF THE DIRECTOR OF MIDDLESEX COUNTY EXTENSION SERVICE

The following is a report of the work of the Middlesex County Extension Service as developed in the town of Winchester for the year 1930.

In agriculture, several farm visits were made especially to those interested in fruits and vegetables.

A campaign to eradicate rats from farm and home buildings was carried on on a country-wide basis and a great many of the poison baits were distributed in the Town.

The Homemakers' Program was developed during the year by four mothers' associations. A series of five meetings on vegetable preparation were attended by 77 women. Thirteen homemakers were enrolled in the project to improve home grounds and these in turn passed on the information to a great many others. In addition to the regular monthly meetings of the above groups, three demonstrations were given to the Highland Mothers' Association and one to the Fortnightly Club, with a total attendance of 162. One meeting was held with the Wyman Association, at which time the work of the Extension Service was explained. Many home visits were made to assist individual housewives with special problems.

Ninety-one boys and girls were enrolled in the 4-H club work; 55 in the garden club; 33 in the canning club and 3 in the poultry club. Evelyn Brown was awarded a medal by The Massachusetts Horticultural Society for excellent club work. Kenneth Benson won prizes at the National Canning Exhibit held in Chicago and stood third in the country-wide canning contest. Charles Eshbach was county delegate to the State Camp at the Massachusetts Agricultural College. Through the cooperation of Richardson's Market, a store exhibit was put on showing the season's work of the canning club. The garden club exhibited in a window of Henry Duncan's Hardware Store.

Many local people took part in the several country-wide meetings held during the year, such as the country picnic at Wayside Inn, Sudbury, and the Homemakers' Day at Lexington.

ROBERT F. GUILD, *Town Director*

# REPORT OF THE TERCENTENARY COMMITTEE

In accordance with a vote of the Town passed at the last Annual Town Meeting a Tercentenary Celebration Committee was established for the purpose of arranging and attending to the observance and celebration by the Town of the Tercentenary of the founding of the Massachusetts Bay Colony, said Committee being authorized to expend a sum not exceeding five hundred dollars for its expenses.

The Moderator appointed James J. Fitzgerald, James J. Quinn, Reverend George Hale Reed, Mrs. Frances R. Williams and Harris S. Richardson, Chairman.

In the beginning, in view of the fact that Winchester was one of the younger towns of the Commonwealth and that the town faced extraordinary expenditures in 1930, the Committee laid plans for a modest but dignified observance, giving special attention to the historic, educational and religious signifiance of the event.

Winchester is rich in historic lore, being identified closely with the early activities of the Massachusetts Bay Colony. Having this in mind the Committee published with the assistance of the Town Engineer two sets of maps, one depicting Waterfield as surveyed and allotted to the inhabitants of Charlestown previous to 1638; the other showing the areas taken for the formation of present Winchester from a map of Woburn published in 1831. Five permanent historic tablets were erected marking "The site of the first house" (Edward Converse), "The Symmes Farm", "The Increase Nowell Farm", "The Squa Sachem reservation" and "John Harvard's land". Historical articles dealing with the founding and development of Winchester were published weekly in the Star.

The purpose and significance of the Tercentenary was emphasized in all the schools by plays and various appropriate programs recalling the history and home life of the early Puritans. The churches of the community cooperated with special services reviewing the importance and religious influence of the Puritans in the foundation of our early government.

Early in June an opportunity arose through the Tercentenary Conference of City and Town Committees to receive the "Salem to Boston Calvacade" en route to Boston. This provided a pleasant spectacle on Manchester Field, it being of interest chiefly to the school children who participated in the brief exercises. As a result of the interest shown in the Calvacade demonstration, it being financed entirely by private subscription, the Committee felt that the citizens wanted and would support a larger celebration. Accordingly, a group of interested citizens met with the Committee and formed a Citizens' Auxiliary Committee to work in cooperation with the original Committee.

Plans were soon completed for a celebration in keeping with the best traditions of Winchester. Through the untiring and efficient efforts of Mr. Hinds, a substantial fund was raised by public subscription and Mr. Fitzgerald, an "Old timer" in the technique of public celebrations, worked out the details of the Gala Day Parade. Meanwhile, the generous offer of two public spirited citizens to finance the entire expense of a good will visit of the Mayor and Mayoress of Winchester, England, during our celebration week was welcomed by the Committee.

The main events of the celebration which took place October 12-18 were, briefly, as follows:

October 12. Community religious service in Town Hall under the auspices of the Winchester Church Council.

October 13. Arrival of Mayor Harry Collis and Mrs. Collis of Winchester, England. Football game and band concert on Manchester Field in the morning, accompanied by an airplane demonstration.

Civic and Military Parade—8000 in line in the afternoon, followed by a band concert and drill by Aleppo Temple Band on Manchester Field.

Illumination and decorated canoe parade along Aberjona River and Manchester Field, with band concert in the evening.

October 14. Public reception to Mayor and Mrs. Collis at Town Hall. Presentation of gifts, Hon. Lewis Parkhurst presiding.

October 15-18. Private receptions and entertainments in honor of our distinguished guests.

Ideal weather together with the splendid cooperation of citizens and Committee combined to make a successful celebration. Class, race and creed were forgotten in the business of having a good time. A civic spirit was in evidence which was worth the entire expenses of the celebration. It will pay dividends in the future.

# REPORT OF INSURANCE COMMITTEE TOWN OF WINCHESTER, MASS. FOR YEAR, 1930

In accordance with the vote of the Town in March, 1927, the Insurance Committee for 1930 was appointed and consists of Messrs. George S. Tompkins, Chairman; Harrie Y. Nutter, Secretary, and Harris S. Richardson.

In accordance with the wishes outlined in the vote at the March Town Meeting, all of the fire insurance expiring during the year has been renewed in Mutual Companies.

The Committee, after considerable reflection, has placed boiler insurance on the boilers in the various public schools and fire and police stations, this policy having been written for a period of three years.

The Committee has also investigated the question of installing Automatic Sprinklers in the various public buildings of the Town, particularly those of larger size, such as the schools, Town Hall and fire and police stations, and it was clearly shown that from a monetary standpoint such installation would not be profitable. From the standpoint of security of property it would be advisable, particularly in such a building as our present Town Hall, but in view of the fact that in a comparatively short time the library will be removed from that building, it seems inadvisable to follow the investigation further until the changes and rearrangement of offices following that removal are completed. At that time the Committee will take up the subject again and follow it to a logical conclusion.

This Committee would report that the total amount of fire insurance now in force under the schedule of Town Property is $1,587,240. During the year 1931, $633,890 will expire and will need to be renewed.

The Committee has effected liability, property damage and fire and theft insurance covering such automobiles and trucks owned by the Town as in its judgment it deems proper to be so insured in order to protect the Town. In other words, all automobiles and trucks owned by the Town performing other than what are known as "governmental functions" are so insured. This insurance is carried by Mutual Companies.

The Committee also has in force insurance covering the boiler in the Town Hall and a public liability policy also covering the same building. It will be necessary to renew these policies this year.

Respectfully submitted,

GEORGE S. TOMPKINS

# REPORT OF THE COMMITTEE ON INCREASED WATER SUPPLY

The Committee on Increased Water Supply created by the vote of the Town Meeting in March 1930, makes the following report of progress:

The Committee, after investigation, finds the water system in good condition. The entire area of the water shed is forested either with hardwood or evergreen growth. This area has been well maintained and is in good condition to receive and hold rainfall. All three reservoirs are far from full. The Committee has given much study to possible sources of increased supply. There is no cause for concern lest there be any shortage in the near future because water may be had from the Metropolitan System in case of emergency. However, with normal increase in population and a tendency toward increase in the per capita consumption of water, our present supply will not be adequate to take care of all requirements in a few years. Realizing that proper treatment of this important matter can be accomplished only after extended study, your Committee asks that it be continued for further investigation and report.

## REPORT

### Of the Winchester Board of Health for the Year Ending December 31, 1930

It is with gratification that your Board is able to report that another year has passed without the occurence of any unusual conditions of disease or epidemic to mar Winchester's reputation as "a healthy place to live". The medical profession, by its continued co-operation with your Board, has done its full part in preventing the spread of such contagious diseases as broke out in town. Winchester was indeed fortunate to escape the dread visitation of infantile paralysis, which appeared in some of our neighboring towns.

But the efforts of the Board of Health to prevent the spread of contagious disease are only a part of its activities in the interest of the health and welfare of every citizen of the town.

The sources of the milk supply of the town are regularly and carefully scrutinized by personal visits from Mr. Dinneen, the Health Officer, or by other representatives of the town, even including periodic visits to the dairies of Vermont and other distant points from which much of our milk comes. Monthly analysis of samples of the town's milk (Summarized in the accompanying Chart) are made to insure milk up to the legal standards of purity and quality. Pasteurization of all milk sold in town, other than certified milk, was first required by the Board in 1929 and we feel that the results already obtained have justified the additional expense imposed upon the producers.

The collection and disposal of garbage is a service performed through your Board which literally extends to every household in town. The regularity and efficiency with which this humble but necessary function is performed by the employees of the Board, most of whom have been engaged in this work for many years, is best attested by the small number of complaints.

The complete motorization of the garbage collection equipment two years ago has resulted in increased efficiency and economy of operation. A new motor truck will be needed in 1931 to replace a truck in daily service for seven years over a route covering many miles. Where is he who will scoff at the "value received" from this lowly Ford? And we propose to retain and use it as a spare truck in emergencies!

In all previous reports, we have spoken at some length of the exceptional work performed by Dr. Raymond in the dental clinic, and Miss Moffette as public health nurse. Their detailed reports, accompanying this, again demonstrate how far reaching and vital is the service carried on by Miss Moffette in the schools, clinics and homes of the town, and how hard it would be to overestimate the value of Dr. Raymond's care of the teeth of the young children at an age when such care is so essential and yet otherwise beyond the financial ability of many parents.

The Stable and Sanitary Inspectors have performed their usual faithful and valuable service, as shown by their annexed reports.

With the successful functioning for another year of a machine so diverse, as indicated by the above description of some of its regular activities, all under the jurisdiction of your Board, we can only again express our sincere appreciation for the unfailing tact, patience and skill exhibited by our Health Officer, Mr. Dinneen, in the daily operation of this machine, over all the years.

But the regular routine of activities of the Board of Health is not all we are endeavoring to accomplish. In the past few years, we have been working towards two goals, the attainment of which is fraught with many difficulties and delays, and yet to which we are gradually approaching we feel with a confidence increasing each year. One of these aims is the filling in and cleaning up of all unsightly portions of the waterways and ponds in the town, especially north of the centre, and the other (and allied) aim is the elimination of the causes of pollution of the Aberjona River and the ponds and other waterways of the town.

We feel that we can again report substantial progress in 1930 toward the attainment of these two aims, both of which have a large bearing upon the health, as well as the beauty, of our town.

The material for filling in the shores of the ponds and adjoining swampy areas is being obtained from the rubbish and waste materials brought to the public dump, which is under the control of this board. This dump on the north end of Black Ball Pond, is under the constant supervision of two employees of the Board, who see that the fill is made within the lines established as the prospective shore line of the ponds. The completion of the present program for building out the shores will probably take about three years more, but, when finished will render the ponds and adjoining districts much more attractive, and will furnish considerable available land for playgrounds or other civic purposes.

With the hope of expediting the completion of this work, the Board is endeavoring to induce the Boston and Maine Railroad to dump filling materials into the ponds adjoining the railroad location, within the new shore line as established, but probably this cooperation from the railroad cannot be expected until its own pressing need for filling materials in the extensive development near the North Station, Boston, has terminated.

To obviate complaints made in the past that the papers and waste materials brought to dump were carried over the neighborhood by unruly winds, a large incinerator was built in 1930 partly out of discarded materials at a small expense and its daily use has given great satisfaction to the adjoining residents.

In addition to their other duties, the custodians of the dump also police the banks and shores of Russell Brook, the upper

Aberjona, and the upper ponds, and have either removed much rubbish or prevented its deposit. On the whole, we feel that the conditions of these banks and shores was never more satisfactory in recent years. Such a situation is particularly gratifying at a time when the town is completing its extensive improvement and beautification of the shores of Wedge Pond.

The problem of eliminating the source of pollution of the Aberjona River was so old, and the results obtained over so many years had been so unsatisfactory that our Board approached this problem afresh three years ago with great temerity. But beginning with the construction of the "missing link" in the Metropolitan sewer, between Winchester and Medford, followed by the construction and necessary re-construction of a new sewer in Woburn to connect with the Metropolitan sewer, (all described in previous reports, and to which we bent our efforts) we felt that substantial progress was being made. It was ascertained in 1930, however, that the new Woburn sewer could not be used by three polluting tanneries in that city until further appropriations were made to build connections to these tanneries. Your Board took the matter up with the State Board of Health and the Attorney General, with the result that a connection to the only polluting tannery now in operation is to be constructed at once with the promise of the construction of the other connections when needed. The gelatine works in Stoneham, which has been a serious source of pollution in the past by emptying its waste into the Aberjona, has again been allowed the use of the Metropolitan sewer. This should eliminate most of this pollution, except in the case of occasional overflows at times of high water. Also, the State Board of Health has secured excellent results in preventing pollution of Russell Brook, by tanneries along its banks in Woburn, when complaints were made to it by this Board on several occasions in 1930.

Your Board feels keenly that the present condition of the banks of the Aberjona near Wedgemere Station, and of Upper Mystic Lake were the Aberjona enters it is a disgrace to the town. The slimy banks and half-filled lake, out of which vegetation is growing, are viewed daily by thousands of travellers passing by by train and automobile, and give a barren picture where the aspect could easily be made beautiful. As most of this problem is within the exclusive jurisdiction of the Metropolitan District Commission, your Board recommends early united action by the citizens of the town to end this intolerable nuisance, to which end your Board proposes to lend all assistance possible.

A special piece of work undertaken by your Board in 1930 was the complete revision of the compilation of the state laws relating to the public health, and of the rules and regulations of the Board of Health. The last compilation was made in 1914, and a revision was essential in view of the mass of new legislation and regulations. This compilation will be printed by the Board in 1931 for public distribution.

In conclusion, may your Board take pardonable pride in calling attention to the fact that in 1930, again we turned back to the town part of our appropriation, and in 1931, again, as for several years past, we will have to ask no substantial increase in our budget, in the face of the increasing population of our town, and the widening sphere of our activities.

# HEALTH OFFICER'S REPORT

## MILK

*To the Board of Health,*
*Winchester, Mass.*

*Gentlemen:*

An examination of our milk chart showing the average of bacteria per c. c., and the fats and solids of the samples taken during the year 1930, will show that the quality of the milk coming into our town has been the best we have ever received. As an instance of this, our chart shows that we are getting a milk which contains approximately 4.00 per cent fat and in many cases much above this mark. In contrast with this high quality is the State standard which is only 3.35 per cent fat.

Pasteurization of our entire milk supply, except certified milk, has improved the cleanliness and safety of the milk to such an extent that our milk supply is in a most excellent condition. Pasteurization has been the most progressive step in the supervision and control of milk ever instituted in Winchester, and if properly done, will insure safety.

A glance at our milk chart will prove the force of this statement. In many instances the chart shows an average of 4.000 per c.c. for 12 samples taken from individual dealers during the year, which is approximately 100 per cent. Milk of such a low bacterial content is almost foolproof and it is hard to see how disease may be spread from this source.

It is surprising how quick the farmers and dealers were to catch on to the technical methods and details of the process of pasteurization. Dealers have been able by close application and study to effect the transition from a raw milk supply to a pasteurized product very smoothly. My experience in this matter would indicate that very often educational advice from the inspector will straighten out many difficulties without the aid of rules and regulations backed up by court penalties.

To reach an even higher standard of efficiency than that now achieved by pasteurization, there are two additional requirements we might make as follows:

1. The medical supervision and examination of the employees engaged in the handling and precessing of milk.
2. The tuberculin testing of cattle.

If these prove practical, we will no doubt adopt them, but our present requirements are making possible a milk supply as clean and as safe as any milk distributed in the Commonwealth.

During the year there have been no contagious disease epidemic or has there been any disease which could be directly or indirectly charged to our milk supply.

This year the inspection of dairies was extended to New Hampshire, Vermont and to all the dairies in Massachusetts supplying Winchester. I cannot stress too strongly the importance of this work in obtaining a good milk supply.

A decided improvement was noted in the sanitation of the dairies, milk houses are now the rule rather than the exception, and the handling, cooling and general processing of milk has been noticably improved. An interest is now being manifested by the farmer in these matters. I am quite sure that the instructions sent our by the Health Boards is largely responsible for this improvement.

We are indeed fortunate in having many local dealers whose product reaches the consumer with a minimum of time. Some of the equipment at these dairies is very modern such as expensive refrigerating plants, milking machines, etc., all of which increases the cleanliness and safe production of the milk.

## REPORT OF THE DENTAL CLINIC

*Board of Health*
*Winchester, Mass.*
*Gentlemen:*

I respectfully submit my report for the year ending December 31.

The year 1930 closed with new records made in total operations for the regular school dental clinic. Appointments are now made months ahead with all emergency cases cared for as they come up.

The popularity of our pre-school summer clinic can be attested by the fact that we are now practically operationg on a hundred percent pre-school basis. This is accomplishing much for our early grades and is building up better foundations for their future dental care which in turns aids materially in their classroom work.

The School work is summarized as follows:

| | |
|---|---|
| Total Cleanings | 433 |
| Total Examinations | 455 |
| Total Number Fillings | 1,461 |
| Total Number Treatments | 1,719 |
| Total Local Anesthesia | 245 |
| Total Extractions | 245 |
| Total Number of Patients seen | 805 |
| Total Number of Public School Children | 633 |
| Total Number of St. Mary's School Children | 172 |
| Total Number of Patients Discharged | 244 |
| Total Number of Days Worked | 149 |
| Total Number of Operations | 4,558 |

The Pre-School Clinic from July 15 through August 8, 1930:

| | |
|---|---|
| Total Cleanings | 60 |
| Total Examinations | 69 |
| Total Number Fillings | 155 |
| Total Number Treatments | 201 |
| Total Local Anesthesia | 6 |

| | |
|---|---|
| Total Extractions | 6 |
| Total Number Pre-School Children | 78 |
| Total Number Public School Children | 4 |
| Total Number St. Mary's School Children | 7 |
| Total Number Patients seen | 89 |
| Total Number of Patients Discharged | 29 |
| Total Number of Days Worked | 16 |
| Total Number of Operations | 497 |

## REPORT OF THE STABLE INSPECTOR

*To the Board of Health,*
*Winchester, Mass.*

*Gentlemen:*

I respectfully submit the following report of my work as Stable Inspector for the season April 28, 1930 to October 1, 1930.

| | |
|---|---|
| Number of Licenses Issued | 26 |
| Number of violations of rules | 18 |
| Total number of weekly visits | 572 |
| Total number of stables requiring second visits | 15 |
| Total number of visits for season | 587 |

I made weekly reports to the Board of Health Agent regarding conditions at the stables, and performed my duty as he recommended.

Respectfully submitted,

DANIEL E. HURLEY
*Stable Inspector*

## REPORT OF THE SANITARY INSPECTOR

*To the Board of Health,*
*Winchester, Mass.*
*Gentlemen:*

I respectfully submit the following report of my work as Sanitary Inspector. The violations in regard to unsanitary receptacles are as follows:

On the ten violations all have complied with the Sanitary Inspector's request.

Very truly yours,

PATRICK H. CRAUGHWELL
*Sanitary Inspector*

# REPORT OF THE BOARD OF LIBRARY TRUSTEES

The past year has been an eventful one for the Library. At the annual town meeting in March the town representatives voted practically unanimously to build a new library building and appropriated the sum of $175,000 therefor. A special committee was appointed to supervise the erection of the building. This committee has had numerous conferences with the Board of Trustees and the librarian, with the view of planning a building which will meet the practical needs of the town, and to be so arranged as to secure the most economical management. It is expected that the building will be ready for occupancy about October first.

At the special town meeting held on Jan. 5, 1931, the town voted to increase the number of trustees from three to six. The Board heartily approves of this move. There are many citizens who are especially qualified to be of assistance in solving some of the new problems which will arise when we get into the new building.

There seems to be renewed interest in the library. Attention is especially called to the great increase in the use of the library as shown by the increase in circulation from 59,961 in 1929 to 78,035 in 1930 or an increase of over 30%. This is all the more remarkable when we realize that there has been very slight annual increase during the past ten years. This gratifying increase in circulation is probably due in large part to the interest aroused in a new building. In part it is also due to the fact that during a large part of the year the library has been opened two hours during each week-day forenoon, as well as continuing the practice begun last year of having three or more copies of the same book when there was a popular demand for it. Also probably the publication of lists of new books in the Winchester Star has had its influence. Our thanks are due to the Editor for giving space to these lists without making any charge therefor.

We wish again to thank the patrons of the library who have presented books, magazines and photographs. May they receive part of the pleasure they give to others.

We would call attention to the interesting report of the librarian.

The operation of the library in charge of Miss Quimby, supplemented by Mrs. Lloyd in the children's room and by Miss Oliver has been efficient.

The display of books corresponding with current happenings has been timely and attractive.

Again this year Miss Sylvia Parker has told stories to the children of Winchester under the auspices of the library. The story sessions have been well attended.

The increasing circulation and the expenses beginning in the fall in connection with the use of the new library building covering:

| | |
|---|---|
| moving | $800 |
| extra fuel for heating | 400 |
| extra help, janitor service | 500 |
| extra lighting | 100 |

cause the trustees to recommend an increase in the appropriation granted last year. The trustees therefore recommend that the town appropriate $12,600 for the coming year.

The term of Mr. Edgar J. Rich expires in March, 1931.

Statement of receipts and expenditures for the past year follows:

## RECEIPTS

## LIBRARIAN'S REPORT

*To the Trustees of the Winchester Public Library.*
*Gentlemen:*

The greatest event of the year was the vote passed by the March Town Meeting for an appropriation to erect a new Public Library Building, consequently everything since then has been done with that in view.

The year 1930 has been a very busy one, over a thousand books have been added to the library and the circulation 78,035 is the largest in the history of the library 18,074 more than in 1929.

We anticipate that when the library has the advantage of the good conditions of the new building it will have a better opportunity to reach a still larger number of citizens and prove of greater use to the community.

Everyone who lives in this town should turn to their Public

Library, with its sources of knowledge and power, when in pursuit of a subject, just as a student turns to his school or college Library. Whether they are reading or studying individually, or as a member of a group, they depend on books, magazines and printed materials. These they will find in the powerhouse of education the Public Library.

**Morning Hours:** The experiment of opening the Library from 10 a.m. until 12 noon began the last of April. It soon proved its usefulness and 3,679 books have been circulated and 2,085 people have visited the library during the morning hours. Doubtless the hours will be increased when we reach the new building.

**Cooperation with Schools:** Continuing the custom of the last two years the High School Librarian has borrowed numerous books for the use of the Teachers and Scholars. At the present she has some three or four hundred for that purpose. This is a convenience for both school and library because she is able to give the pupil the right book at the time needed.

A Primary School Teacher has borrowed photographs, and we hope to be able to extend this service considerably in the future.

**Story Hour:** Miss Sylvia Parker continued her interesting story-telling to the children for awhile at the beginning of the year and resumed it in the Fall during Book Week. On Wednesday, December 17, we had some over fifty children crowded into our Children's Room listening with delight. Here is another activity we are looking forward to having larger quarters and greater opportunities for in the new building.

**Exhibitions:** Again this year important current events have been noticed and new books exhibited.

**January:**

"Slings and Arrows" by Lloyd-George.
"Myron T. Herrick", life by Mott.
"Franklin, the apostle of modern times" by Fay

# ANNUAL REPORT OF THE SCHOOL COMMITTEE, 1930

Each year it has been the effort of the Committee guided by the Superintendent, Mr. Quinn, to make some progress in perfecting the curriculum in the various grades and to bring the instruction in any one elementary grade to the same standard in each school. Steady progress has been made in this direction, and this last year a more definite standardization was effected particularly in reading instruction.

These changes can be made only a little at a time, but in a few years it is hoped that each grade will have a definite completed curriculum in each subject so that pupils in all grades and in all buildings will receive instruction carefully adapted to their progress.

Again we acknowledge the constructive work done by Mr. Quinn as Superintendent, and the high order of his leadership. We are likewise cognizant of the very fine spirit that exists throughout the entire corps of teachers and the interest shown by them in advancing their pupils not only as a group, but as individuals.

Each year brings a number of changes in the teaching force, but we have been fortunate in securing new teachers who have this same essential spirit of interest in the work and in the individual pupil, and who will maintain the standard of excellence in instruction. We think our corps of teachers will compare favorably with that of any town similar to ours.

The fine group of elementary school buildings with their modern equipment and pleasant surroundings has undoubtedly been a contributing factor in making it possible to secure and to hold the most desirable teachers. For this reason, among others, we look forward to the day when the facilities, equipment, and general surroundings for the 7th and 8th grades and those through the High School shall be brought up to a level comparable with those of the elementary grades.

**Membership:**

The number of pupils in our schools are steadily increasing.

The figures for membership in the various buildings for each year since 1925 are given in the Superintendent's report. These figures show the increase averaged over the last five years as follows:

| | 1925 | 1930 | Per Cent Increase |
|---|---|---|---|
| Elementary grades | 1221 | 1451 | 18.8% |
| 7th and 8th grades | 299 | 335 | 12.0% |
| High School | 426 | 568 | 33.3% |
| Whole school system | 1961 | 2370 | 20.8% |

This year, owing to increased numbers in the 4th and 5th grades in the Mystic School it became necessary to open the vacant room in this building. There is now vacant one room in the George Washington School, one room in the Noonan School, and one room in the Wyman School. The latter, however, is being used until a more appropriate place is available for the Lane collection of birds and other nature exhibits.

**Athletics:**

The year has shown commendable results in physical training and in organized sports under the direction of Mr. Mansfield and Miss Centervall and their assistants.

The Girls' Field Hockey team in the Mystic Valley League won the championship of the Northern Division, losing only to Arlington when playing for the Greater Boston championship.

The Cross Country team won the Harvard Class "B" High School Championship.

The Football team finished second in the Mystic Valley League; 7 games were won, 2 games were lost and 1 game tied.

Upon the recommendation of the Superintendent, the Principal of the High School, and Coach Mansfield, the Committee voted to withdraw from the Mystic Valley League after the close of the football season, and to form a new league with other schools more comparable in size. It has been felt that the teams in the Mystic Valley league made the competition too strenuous, and placed our school team under continued high tension. The other schools in the league had in most cases more than three times the number of boys to draw on for their teams and for substitutes.

By forming a league with schools of about the same size as Winchester, the teams will be more evenly matched, and the interest and advantages of league competition can be secured without undue strain and so much danger of injury.

**Need for Additional Secondary School Accommodations:**

The Wadleigh School, an eight room building, can effectively accommodate a maximum of 280 pupils. The November membership, including the pupils in the portable building in the rear of the Wadleigh school, is as follows:

| | | |
|---|---|---|
| Grade 7 (5 divisions) | 170 | |
| Grade 8 (4 divisions) | 147 | |
| Special Class | 18 | |
| | —— | 335 |

In addition, there is in the Lincoln School one other special class containing 18 pupils of Wadleigh School age who should be housed in the latter building. To house adequately the present membership would require a school building containing 11 standard classrooms. The overcrowding promises to be still greater next year, since this year's 6th grade totals 193 pupils, 46 more than the 8th grade which will leave the Wadleigh School in June. It is reasonable to expect, based on recent experience, that each succeeding year will show an increase of 4% in membership.

Furthermore, the Wadleigh School entirely lacks the following facilities:

1. Assembly hall.
2. Gymnasium.
3. Study hall.
4. Lunch room.
5. Room for cooking classes.

Moreover, the playground is conspicuously unsuitable, and the basement accommodations for classes in sewing, sloyd, and printing are crowded, dark, and poorly ventilated.

The High School is now, for the second year, on the two-platoon system. Except as a necessary, temporary makeshift such a system is indefensible. The freshman class is the chief loser. Its members must attend classes in the afternoon when fatigue may retard progress. Their daily session has been cut 20%, from 5 to 4 hours, a loss which unquestionably affects the quality of their work. The freshmen are further handicapped by their isolation and complete separation from all school activities and school life.

The morning session for the three upper classes demonstrates that the High School building is large enough for their needs. Without enlargement it should afford enough space for these classes for at least five years. The showers, locker rooms and cafeteria, however, are inadequate.

As an educational policy, the School Committee advocates placing the pupils of the 7th, 8th and 9th grades in a building separate from the older pupils of the senior high school. The School Committee also advocates providing a playground of suitable size and character to afford opportunities for the physical training program required by State law.

The School Committee is not interested in any one particular lot as an end in itself. It is obvious, however, that some lot must be chosen. Every lot can be found open to some objection. The School Committee is concerned only in acquiring a lot at a reasonable cost that will provide the necessary accommodations for the school building, allow for future additions, and furnish adequate playground facilities. The Main Street lot meets these basic requirements. It is the only proposed site that has ever received a majority vote of the Town. The School Committee, therefore, unanimously recommends that the Town acquire the Main Street lot and erect thereon a new school building for the 7th, 8th, and 9th grades, thus giving simultaneous relief to conditions in both the Wadleigh and the High School. The new building should have the capacity to house 734 pupils, which will allow for estimated growth for ten years. This site, besides offering an attractive setting and allowing room for any additions to the building that may be necessary in the future, affords a two and a half acre level playground on the Parkway side.

The School Committee feels that the Main Street lot offers the following further advantages that make it the best site that has been proposed:

1. It is near the Senior High School, and it will therefore be practicable for the two schools to use some facilities in common. Common use may be made of the cafeteria in the new building, and the space now occupied by the cafeteria in the High School may be utilized for extra lockers and showers. In future years, when it becomes necessary to add to the High School, the present assembly hall can be divided into classrooms and the assembly hall in the proposed building used by both groups.
2. It is near Manchester Field.
3. It is near the civic center and the new library.

Since this Main Street location was proposed by the Committee on Secondary School Accommodations last March, it has consistently won the support of the majority of the voters. In Town Meetings, it has twice secured more than the required two-thirds vote, and in two subsequent referenda has won a substantial majority as shown below:

**Referendum May 2, 1930**

| | |
|---|---|
| Yes | 2186 |
| No | 1288 |
| Necessary for 2-3 vote | 2316 |
| Failing of 2-3 vote by | 130 |

**Referendum June 12, 1930**

| | |
|---|---|
| Yes | 2033 |
| No | 1094 |
| Necessary for 2-3 vote | 2085 |
| Failing of 2-3 vote by | 52 |

The estimated cost of land and building, exclusive of equipment is $385,000.

It is recommended that the money be raised as follows:

| | | |
|---|---|---|
| 1. | By an issue of bonds outside the debt limit | $250,000. |
| 2. | By an issue of bonds within the debt limit | 100,000. |
| 3. | By revenue | 35,000. |
| | | $385,000. |

The increase in the tax rate necessitated by this expenditure will be about $1.05 for 1931, and gradually less each year thereafter.

The need for a new building is urgent. Construction costs are lower now than may be reasonably expected later in the year. Relief to the serious unemployment condition is a further factor meriting sympathetic consideration.

If immediate favorable action is secured, construction can be started late in the spring so that the building can be ready for use in September, 1932. If action should be postponed until the annual Town meeting, construction could not be started until fall when winter conditions would delay progress so that the building would not be complete until the spring of 1933. Under these conditions, the Committee would not feel justified in opening the school until September, 1933, a loss of one year in the actual use of the building.

The Committee hope that the voters will appreciate the urgent need of additional secondary school accommodations and will act favorably at this time.

## REPORT OF THE SUPERINTENDENT OF SCHOOLS

*To the School Committee:*

I am happy to present to you the following annual report of the schools. This includes the annual reports of my colleagues and the usual statistical data.

### In General

The schools closed in June with a year of accomplishment, I am sure. There is nothing to report of a spectacular nature, but rather a report of progress in refinement of school organization and administration. The fundamentals of good school have been stressed, such as careful gradation of pupils, their placement in classes of reasonable size, providing for them the best teachers we can find with the salaries we pay, equipping them with the necessary materials to do their work, continued study to improve the curriculum which they study, stimulating a philosophy of education among teachers that places the pupil at the center of things educational and that works for individual pupil growth and development, a supervision of teachers that is sympathetic, but not spineless, constructive and stimulating, yet not unfair, conscious of our great cultural inheritance, yet sensitive to the light which ushers in today, and gives hints of that which comes tomorrow. Yes, the schools have been rather quietly administered without much of the flamboyant or the advertising of some new technique which is to revolutionize our teaching.

### An Important Factor Contributing to Teaching Effectiveness: Size of Classes in Our Schools

When one thinks of school buildings, their erection, equipment, operation and maintenance, of budgets, curricula, methods, and countless details connected with the administration of a public school system, it is not surprising if occasionally one loses sight of the youth for which the schools exist. The good school administrator is not likely to lose sight of them for long, however. If his philosophy of education is sound he sees all of these things, important though they be, as instruments for one purpose only—the education of boys and girls.

One of the factors which unquestionably affects the quality of education of our youth is the size of classes. No one living knows the ideal size of classes, though experience teaches certain limits. The recent munificent gift to Exeter by Mr. Harkness will make possible the instruction of boys in classes of ten. Whether this be the ideal or not, it is obvious to the experienced teacher that more time can be given by the instructor to each individual boy, and each boy will be stimulated to think and express himself more intensively during the class period.

It should be said, however, that there are probably several ideal sizes of classes, depending upon the subject, the students, and the instructors' purposes. A class meeting today to hear an instructor develop a subject or topic out of his rich scholarship and experience might well be very large. If on the other hand tomorrow these same students were to do some real thinking on their own part, organize and express their thoughts under wise guidance, it would be to their advantage to be divided into several classes for the more individual contact with the instructor.

The individual attention needed in sewing classes or in classes of mentally handicapped children would require comparatively small classes, such as 10, 15 or 20. On the other hand, a typewriting class might well include students of twice twenty.

Without doubt, one of the handicaps of many public school systems is the number of classes with comparatively large numbers. Having in mind that there are probably several ideals of class size, I am submitting below a picture of our size of classes in December, 1930. Though we cannot ever approximate the conditions that will prevail at Exeter, nor would it be always desirable with the greater scope and variety of educational activity from the kindergarten to the senior year of high school, we can, however, continually strive to keep classes unwieldy in size to a minimum.

| | | | | 335 |

We should not be proud of this, but limited quarters prevent further division of classes. If there were more room, we should have another division for each of the grades, so that the divisions would average 28 or 30.

**Size of Classes—High School**

In November, there were 97 classes or recitation divisions in the High School exclusive of classes in Cooking, Sewing, Printing, Music, Physicial Education and Art. These latter classes might be very large or very small in size.

The 97 classes were distributed as follows according to number of students per class.

| Number of Students in Class | Number of Classes |
|---|---|
| Under 20 | 16 |
| 20—25 | 26 |
| 26—30 | 34 |
| 31—35 | 14 |
| Over 35 | 7 |

Nearly 80% of these 97 recitation divisions or classes have 30 or less students in each class. This is commendable. We should look forward to reducing as far as possible the 21 classes that exceed 30, though even some of these may be effectively taught with numbers over 30. The nature of the subject studied has a bearing on the matter.

We should likewise have an eye to the number of classes that are under 20, even though we must expect to have a few classes of small size. In the senior year, for illustration, the number of students electing Virgil or advanced mathematics tends to be small. They have continued through these subjects finding them necessary or helpful in fitting themselves for college entrance. As this is one of the legitimate purposes of the high school, such classes should be maintained even though the number of students is small. We should, however, be just as ready to maintain a few small classes in other subjects if such classes would meet the educational interests and needs of other pupils. The public schools should never lose their interest in all of their pupils even though the educational needs are many and therefore likely to demand greater variety of educational offering and scope, and hence a more expensive educational program. When classes do fall in number below 20, however, they should be carefully scrutinized and should be continued only if justified in the light of the above principles.

Though there is room for improvement in the size of our classes, I believe the data submitted above for all of our schools are highly encouraging. A genuine effort has been made to keep our classes reasonably small and thus effect conditions which are conducive to effective teaching instruction.

## School Adaptation to Modern Needs

A public school system will always cherish the "inherited culture of the race," and pass it on to its succeeding generations of students. It will also be observant of present day developments and needs that it may be of greater usefulness in helping young people adjust themselves successfully to the life of their times. I have taken one instructional activity only to illustrate how the schools modify or add to their curriculum in response to modern needs. I refer to our instruction in Safety.

Science and invention have brought many changes and conveniences to our modern life. But with them have come speed and hazards. The schools have not been slow to see the many dangers prevalent in our age, especially to our youth, and have set up an educational program to help meet them.

The lessons in safety actually taught in our schools may be classified and outlined as follows:

**Safety** by means of

1. Oral and written English classes—speaking and writing on Safety subjects.
2. Dramatization—dramatizing incidents illustrating safe practices.
3. Special assemblies with Safety as the subject.
4. Art classes—making safety posters, coloring pictures, illustrating safety, etc.
5. Fire drills.
6. Games organized around safety rules and practices.
7. Reading of safety stories in books and the Safety Magazines.

The specific safety ideas or subjects taught through the above channels are listed below:

1. Danger of playing in streets.
2. Danger of throwing stones.
3. Careless use of matches.
4. Obeying policeman at crossings.
5. Safe places for bicycling, roller skating and use of scooters
6. Fire drills.
7. Danger in crossing railroad tracks.
8. Possible danger when carrying umbrellas.
9. Facing door in an elevator.
10. Danger in running into street after a dog.
11. Danger in going behind trolley car in crossing street.

12. Danger in rocking the boat.
13. Danger in coasting across the road.
14. Danger of throwing banana peels into the street.
15. Watching step when playing near water.
16. Danger in playing in an unfinished building.
17. Follow traffic lights.
18. Danger in fire arms.
19. Danger in hanging wires.
20. Danger in firecrackers.
21. Keeping away from trucks and refraining from "hooking rides."
22. Proper disposal of fruit skins.
23. Fire
    - *a.* Causes.
    - *b.* Calling of fire station.
    - *c.* How to put it out.

24. Simple first aid:
    - *a.* Small cuts.
    - *b.* Bruises.
    - *c.* Burns.
    - *d.* Fainting.
    - *e.* Something in eye.
    - *f.* Insect bites.
    - *g.* Electric shock.
25. Danger of soft ice.
26. Possible danger in canoeing.
27. Correct use of scissors.
28. Climbing trees and ladders.
29. Danger in playing with knives.
30. Danger of swinging doors.
31. Danger of snow-balling on streets.
32. Danger in placing obstacles on car tracks.
33. Danger of leaning out of windows.
34. Use of pea shooters and sling-shots.
35. Proper disposal of glass, wire, nails and tacks

Our schools have thus lent their influence in the. campaign for safe and sane living in this rushing age, pregnant with dangers for our youth in so many places.

### Some Interesting Figures for the Last Five Years

| | 1925 | 1930 | Per Cent Increase |
|---|---|---|---|
| Massachusetts population | 4,144,205 | 4,249,614 | .025 |
| Winchester population | 1,566 | 12,719 | .099 |
| School Membership in Winchester | 1,961 | 2,370 | .208 |
| El. Sch. Membership in Winchester | 1,221 | 1,451 | .188 |
| Wadleigh School Membership | 299 | 335 | .12 |
| High School Membership | 426 | 568 | .333 |

### Yearly Per Cental Increase

| | | |
|---|---|---|
| 1. | Town of Winchester | About 2% |
| 2. | Total School Membership | About 4% |
| 3. | Elementary School Membership | About 3½% |
| 4. | Wadleigh School Membership | About 2½% |
| 5. | High School Membership | About 6½% |

### Salaries of Our Women Teachers

This is obviously not the time to urge increases in teachers' salaries. I feel keenly enough about it, however, to at least mention it, so that as the Committee considers future developments within the department, the teachers may be fairly considered.

We expect much of these people, and on the whole they give much to our pupils There has been in general whole-hearted cooperation on their part in the advancement of our educational program. To them largely must go the credit for this progress, because they are in direct contact with our youth, day after day and hour after hour. Their work here is especially exacting and energy consuming.

It is my sincere interest that the Committee not later than 1932 seriously give consideration to increasing the maximum salaries of our more than average corps of women teachers.

## The Tercentenary

I am happy to record my great satisfaction in the quality of the Tercentenaty programs as given by our schools. The High School participation in the parade was especially commendable, as well as the excellent assembly programs held in all the schools for the parents and citizens. I believe the spirit of the Tercentenary year was effectively brought home to our pupils because of their actual participation in the celebration.

Mention should be made of the interesting booklet prepared by our elementary school pupils, which described our community in writing, and pictures. This was presented to His Worship, the Mayor of Winchester, England, by Meredith Wagner, a pupil of the Mystic School, who is direct in line in descendary from Edward Converse who built the first house in Winchester. The Mayor was to convey the gift to the pupils of Winchester, England.

## Some Good Things

1. Symphony Concerts.
2. Lecture by Donald MacMillan.
3. Bird Lecture by Edward Avis.
4. Wild Life Lecture by William Finley.

## Matters Needing Further Study and Improvement

1. More definite organization of what we teach and its continuity throughout the school system.
2. More attention to the Individual.
3. Achievement in fundamentals that will more surely carry over in the higher grades of the system.
4. A perpetual attack against slovenliness and superficiality and therefore a perpetual interest, if not zeal, in quality, thoroughness, and sound thinking.
5. The elevation of the training of children in good thinking habits to a major objective and thus seeing in nearly all subjects the instruments which may be daily used to sharpen the thinking processes of our youth.

6. A periodical shaking of ourselves,—teachers, principals and superintendent that we may be jerked out of complacency and deadening ruts, and be rededicated to nobler and finer effort.

My sincere thanks go to all my colleagues for a year of progress through professional cooperation, and to the School Committee for continued support in good school administration.

Respectfully,

JAMES J. QUINN

## REPORT OF HIGH SCHOOL PRINCIPAL

*To the Superintendent:*

I herewith submit for your consideration my seventh annual report as Principal of the Winchester High School.

Last year we graduated the largest class in the history of the school and for the first time the number of graduates in one class passed the century mark, 105 students being added to our Alumni. The year previous, in June, 1929, we graduated 91 and in 1928 the number was 81. There are at present 118 candidates for diplomas in June 1931. The December Membership in the 4 years of high school by grades is as follows:

IX—180 X—157 XI—115 XII—108 XIII—8

a total of 568. The December membership in 1929 was 557. The Total Enrollment for the present school year is 579.

For the past two years the school has opened later in September than formerly. This has resulted in having more nearly a hundred percent enrollment from the very start of the school year. In September 1930 we had five new members on our faculty—three regular teachers and two on part time. Mr. Keeney came from the Newton High School to take over the work of Mr. Eager, who was added to the faculty at Dartmouth College. Mr. Alley is the new head of the Science Department succeeding Mr. Fuller, who has enetered the Boston School System. Miss Smith succeeded Miss Messier in the Commercial Department. Mr. Barclay and Mrs. Braim are on part time duty in the Commercial and Science Departments respectively. Judging from the work of the past three months I feel that these teachers will prove to be strong and valuable addition to our teaching force.

As you know, we are organized now, for the second year, as a two platoon school. Aside from the fact that slight changes have been made to effect more nearly equalization in length of recitation periods in both sessions, the school is organized about as last year. The Seniors, Juniors and Sophomores attend school in the morning session, from 8.05 to 1.06 and the Freshmen come in for the afternoon session from 1.16 to 5.15. The morning session is organized as a six period day and the afternoon session has five periods. Most of the handicaps and limitations placed on any school, forced to operate on a two platoon system, are obvious and do not need much explanation. However, after a year and a quarter's experience with the system, some observations can be made. The practical point is that our school is not operating and cannot operate with 100% efficiency as long as we have to operate two schools where there should be only one. Every effort possible has been made to protect the scholastic interest of the school. Nevertheless, I feel certain that the school is not able to function as effectively under our present system as it could under normal conditions. If we continue this plan and the longer we continue it the more apparent our handicap will become. To measure the amount or degree by which the work and scholarship of a school improves or falls down in a short period of time is very difficult and perhaps impossible. But, over a period of time, results will show.

However, at the end of the first year, there are two things to be mentioned which may have some bearing on this point. First of these is the matter of College Board Examinations. Last year the record of our College Board Candidates was the poorest this school has made in several years. It is impossible to analyze the various contributing factors entering the situation and to say with certainty that the failure in a single case is traceable to our present two platoon system. But it is obvious to all who have the responsibility for College Board preparation that the two platoon day militates against their success, and it is at least interesting to see that our poorest record in College Board Examinations for several years comes simultaneously with the two platoon organization. It is reasonable to expect that a shorter school day, a shorter period for the teaching work, difficulties in arranging for special makeup work, the holding of some teachers over into the afternoon session, difficulties in arranging Teacher-Parent conferences, all combine to make for conditions unfavorable for achieving best results.

The second of the two items referred to above is found in the honor roll for the first quarter this year. The percentage of the various classes making the honor roll is usually the lowest in Freshman classes and grows larger by grades with the highest percent found in the Senior class. This is logical and usually obtains. For the first quarter, ending November 14, 1930, the following was the percentage of the various classes who made the honor roll.

XII —15%
XI —14½%
X —087%
IX —13%

The tenth grade, or Sophomore class, obviously is out of line. In this same class, not only is the percentage of honor roll students the smallest of the four classes, but a larger percent of students were failing in one or more subjects and the actual number of subjects failed was materially larger than in the other classes. The present sophomore class is the one class in school that has had the afternoon session experience. As far as I have been able to learn it is in every way a normal class in promise and ability. Here again it is impossible to speak with certainty, but after studying all the known factors the most logical conclusion that can be drawn is that the facts just noted are accounted for, in part at least, by the handicaps of a two platoon organization.

The year just closing has been widely and duly observed as the 300th Anniversary of the founding of the Massachusetts Bay Colony. I wish to report here, and as a matter of permanent record, the part the Winchester High School played in this observance. The nature of our graduation exercises in 1930 was changed from what it had been previously and was built around a Tercentenary theme. In place of the usual Commencement Speaker we used several student speakers, whose papers and readings were pointed to this same theme, as was also the musical part of the programme. The Class of 1930 presented to the school at the Graduation Exercises, a portrait of John Winthrop, a group of books dealing with the founding and early history of the Massachusetts Bay Colony and a time stamp for the office. Also the school has had its attention focused on the historical significance of the year 1930 by use of the assembly. This fall the Dramatic Society presented to the school **The Trial of Mary Ingham,** a play based on an historical event in the early life of the colonist. The parade held in Winchester on October 11th furnished the high school still a third way of making its contribution to the Tercentenary Observance. The student body and teachers, under the leadership of Mrs. Stacy of the History Department, entered into the plan enthusiastically and all graduates and friends of the school were justly proud of our representation in the parade. Throughout the whole observance the attempt was made to put across the real significance and importance of the year 1630 and to emphasize that there was more to the Tercentenary Observance than shouting, noise and parades.

Two matters of importance relative to the Athletic policy of the school have taken place this year that will affect the future years. First: In the girls Greater Boston Interscholastic Hockey League the plan of operation has been radically changed. The League consists of ten teams which heretofore have been divided into a Northern and a Southern Division, with five teams in each division. Under that arrangement each team,played four other teams, always the same four, never the other five teams. The winner in each division met in a playoff for the League leadership. It frequently happened that a tie in a division made necessary two play-offs at the end of the regular schedule. This has been changed. The divisions have been abolished and the play-off eliminated. Next fall the league will operate under a rotating schedule whereby each team plays with six of the other teams each year and with all the teams in the league over a period of three years. It is hoped thus to put the association between schools on a broader basis, at the same time doing away with the championship play-off at the end of the season.

The second matter referred to above was the withdrawing of this school from the Mystic Valley League, effective at the close of the present school year. When we entered the Mystic Valley League, many years ago, Winchester was practically the size of Arlington, Melrose and Watertown and the high schools were about the same size and league competition was on a fair basis. Today the situation is entirely changed—Winchester remains a small town with a population of less than 13,000 people—Arlington has grown to be a town of over 36,000, with three large Junior-High Schools and a three year Senior High of 1099 students. Winchester High on the same basis has 393 students. Melrose High School, a four year high school, has 1137 students. Watertown High School is larger than Melrose. As the years go on these differences in school populations will increase. The fact that we have stood as well as we have in the league is due to the excellent coaching our teams have had from Mr. Mansfield. To a team in a league the success of a season is dependent upon the winning record. An athletic league, if soundly constructed, is made up of a group of schools, each of which has an even chance to win and an even chance to lose. It is not fair to the boys, and to the coaches, to put them into league competition with teams so far out of the size classification. It is hoped that a league consisting of teams of approximately our own size will be formed to sponsor athletic competition in football, basketball, baseball and track.

The gift of the Class of 1930 has been mentioned elsewhere. The money left by the Class of 1929 for the purpose of purchasing a radio has been used to secure a Victor-Electrola and has already proved itself useful on several occasions. The Parson's Scholarship Cup was won in 1929-30 by the Class of 1930. The Washington & Franklin History Medal was won by Francis Hooper, now a Freshman at Dartmouth College. The Stillman P Williams Scholarship of one hundred and fifty dollars was awarded to William Allen, now a Freshman at Williams College.

With a sincere expression of appreciation for your help and cooperation during the past year this report is respectfully submitted.

## REPORT OF ELEMENTARY SCHOOL SUPERVISOR

*To the Superintendent:*

Previous reports have described some special phase of education as carried out in the Winchester elementary schools. It may be of interest to some of the readers of this report to get a more general picture of the elementary department as a whole.

At present the children are housed in six buildings all of which are practically new with the exception of the Highland School which has been thoroughly renovated and made almost as good as new. In these six buildings are approximately 1500 pupils who are divided into fifty-one classes. Each class has a room and a teacher. The rooms are light, well ventilated and heated during the cold weather. The seating equipment for the most part is modern with that in the lower grades largely of the movable type. All rooms are pleasant and comfortable.

There is provided for each pupil an adequate supply of materials, such as pens, pencils, paper and a very generous supply of books both text and library, as well as many reference and supplementary ones.

All buildings and rooms are clean, orderly, sanitary and attractive. Altogether the buildings, classrooms, equipment and materials are far above the ordinary. The pupils of Winchester are fortunate in their surroundings.

There are fifty-one regular classroom teachers with five assisting teachers. Special supervisors and teachers in art, music and physical education are provided. These workers visit all the buildings and give instruction in their particular subjects at regular intervals. A part time physician and a school nurse who gives her whole time are employed to care for the health of the children.

The school day is five hours in length and is divided into morning and afternoon sessions. There are two regular recess periods, one in each session and a lunch period during the morning. Milk and crackers are provided for those who wish. These are bought by the children. The games for recess are chosen by the children and played under the supervision of the teachers. One day a week is devoted to organized games.

The children are given instruction in the regular school subjects, reading, writing, arithmetic, geography, history, language, literature, spelling, art, music, games and folk dancing. In addition to these regular subjects, the elementary schools are responsible for giving training in character, citizenship, health, safety, leisure time, etc. The responsibility does not end in conveying the information concerning these subjects of the curriculum. This instruction must be given in such a way that the child sees a need for acquiring these desirable qualities. Opportunities must be provided for their frequent use in natural ways in order that they may become a vital force in the life of the child.

A program of thrift has been in operation for several years. The children bank each Tuesday morning and the amount thus saved has been simply marvelous. During the school year of 1929-1930 there was banked by all schools including the High and Wadleigh over $23,500.

The children in the upper grades have the privilege of attending the Symphony concerts given by players of the Boston Symphony Orchestra in the Town Hall. These concerts are sponsored by the School Department and furnish an opportunity to hear some of the best music.

A program of visual education has been provided. The films show some of the wonders of nature or some of the principal occupations of the people of the world. These movies are given in the various assembly halls in connection with the subjects which the children are studying. They give to the child a clearer understanding than would be possible to get through reading or from a description given by the teacher. The pictures are used to supplement the instruction, not to take the place of it.

The children meet once a week, as a rule, in the assembly halls. Either a group of children or one of the grades present a program. Subjects frequently chosen are health, thrift, celebration of the holidays, Red Cross and the different school subjects. These assemblies are proving very helpful to the children who delight to participate. These occasions give the children a chance to gain in poise and confidence while retaining all the naturalness and charm of childhood, and are of distinct value in the education of the children.

Occasionally a lecturer or entertainer comes to the schools. The children were delighted with a bird lecture by Mr. Avis who told them about different birds and imitated their calls to perfection. This lecture was given in each assembly hall so that it was possible for all of the children to hear it.

The schools are enrolled in the Junior Red Cross, having had 100% membership for several years. The Juniors perform many and varied services during the year. These activities include school, town and state and even reach out to foreign countries. This organization is the only one in our schools and has proved to be of great benefit to the children.

The participation of the elementary school child in these different activities and in the study of the regular school subjects gives him a varied, yet a very real, experience. The policy of the department is to place the child where he will have the best opportunity to grow and to develop to his greatest capacity. No effort is spared to give him the best in instruction, materials, books, and surroundings. He is given an opportunity to grow in scholastic ability, in citizenship, in character and in the social graces.

BLANCHE A. PRATT

## REPORT OF SUPERVISOR OF ART

*To the Superintendent:*

The art work of the Winchester Public Schools has been carried on with the same fundamental purpose in view as that of the previous year, namely, the encouragement of the pupil's creative ability and the development of a greater appreciation of art. Many of the pupils will not, perhaps, become artists, but we hope to teach art so that every pupil may benefit thereby and cultivate a finer taste and love for all that is beautiful. This may be accomplished from the youngest child in the kindergarten to the senior high school girl or boy if the work is put before them in such a way as to arouse interest and enthusiasm.

We have in our schools many pupils of marked artistic ability who may at some time use their talents either as a means of enjoyment or to earn a living. These pupils are easily recognized in the classrooms by their work and are watched closely and encouraged by the teachers as much as possible. Art to these pupils is a most important subject. Several of our girls and boys from the Senior High School are now attending art schools and we hope that they may be successful in whatever branch of the arts they choose to follow.

To acquaint the public with the art work in our schools an exhibition was held in the High School hall in June. This exhibition showed drawings made from the kindergarten through the Senior High School and was planned with the object in view of showing the progression of the work. Although limited space made it impossible to show all phases of the work, typical examples of representation, color, design and constructive work were displayed.

In the younger grades, the original creative drawings were most gratifying for they showed that the pupils were not afraid to express themselves with utmost freedom. It is evident that the pupils have greatly benefited by their easels.

Perhaps one of the most outstanding features of the upper grades was the poster work which was undoubtedly a great improvement over that of last year. Pupils in the fifth and sixth grades made posters which had been entered in an "Animal" poster contest. While it was not possible to exhibit the prize posters, those that were displayed were unusually fine. The seventh and eighth grade pupils from the Wadleigh School correlated their poster work with the Geography and Literature Departments, making "Travel" and "Book" posters, while the pupils in the Senior High School showed posters which had previously taken part in a poster contest offered by the school for the Junior-Senior Play. This contest takes place each year and the pupils enter into it with a great deal of spirit and enthusiasm. My report would be too lengthy if I were to go over all the work in detail is I have merely mentioned what I thought were the most interesting and outstanding features.

The art work in both the Junior and Senior High Schools can be greatly improved by the addition of another art period each week. Much more could then be accomplished and this would also give time to develop a much needed class in Art Appreciation.

I am particularly grateful to the grade teachers for their fine cooperation during the past year. I also wish to express my appreciation to you for your helpfulness and kind interest in my work.

Respectfully submitted,
DOROTHY M. SHURTLEFF

## REPORT OF DIRECTOR OF PHYSICAL EDUCATION

*To the Superintendent:*

In submitting my annual report on the Physical Education program in the Winchester Schools, I am pleased to report the present program is being carried out to its fullest extent.

The customary Physical Education program has been continued in all the schools and the after-school activities in the grade schools have been very successful. The Wadleigh and the High School after-school activities have also been successful, but the number of pupils participating is limited by the lack of gymnasiums and play fields.

Before a fuller and more inclusive program may be developed in Physical Education the following changes should be considered:

(1) Rearrangement of the grade school daily Physical Education periods which will make it possible to take the pupils to the Assembly Halls.

(2) A closer correlation of the Physical Education and Health programs.

(3) A gymnasium available for the Wadleigh School pupils.

(4) A larger gymnasium for the High School pupils.

(5) The High School Physical Education classes arranged so they will include only pupils of the same school year.

(6) Greater out-of-door facilities for after-school activities. (Mentioned in previous report.)

Winchester's inter-scholastic competition has continued on its high plane by having an average of winning about seventy-five per cent of its games.

The annual grade school Demonstrations of Physical Education activities, the Wadleigh and the High School Field Days, were all well attended and enjoyed, and the High School Athletic Association had the highest membership ever.

Again I thank you, the teachers, and the other members of my division for the interest, loyalty, and enthusiasm, which has been so gladly given to make the program a success.

Respectfully submitted,

WENDELL D. MANSFIELD

## REPORT OF THE SCHOOL PHYSICIAN

*To the Superintendent:*

During the past year the Medical Department has endeavored to keep in touch with conditions throughout the schools by means of a daily report from each principal to the school nurse, who reports to the school physician matters requiring his attention. This procedure has been very successful. It not only allows the Medical Department to plan the daily program for the best interests of all but, also, tends to improve the morning inspection by the individual teacher.

The general excellent health conditions throughout the country has been reflected in the incidence of contagious disease in the schools. During the past year no contagion of epidemic proportions occurred in the schools.

The special posture classes which were instituted during the school year 1929-1930 have resulted in a noticeable improvement in the posture in the pupils attending these classes. It is quite important that these corrective classes be continued.

This year, as in the past two or three years, a special clinic for those having deficient vision has been held in the Lincoln

School. This clinic is for those pupils, only, who, without the advantage of this clinic would not be able, financially, to secure the services of a private physician. The results of this clinic have been very gratifying and I trust that it will be continued from year to year.

It is the New Year resolution of the school physician to devote as much time as humanly possible to the maintenance of the health of the school population of Winchester.

Respectfully submitted,

ROGER M. BURGOYNE, M.D.

# REPORT OF AN AUDIT OF THE ACCOUNTS OF TOWN OF WINCHESTER

## FOR THE PERIOD FROM JANUARY 1, 1929 TO MAY 16, 1930

**Made in Accordance with the Provisions of
Chapter 44, General Laws**

**July 8, 1930**

State House, Boston
July 8, 1930

*To the Board of Selectmen*
*Mr. Harry W. Stevens, Chairman,*
*Winchester, Massachusetts*

*Gentlemen:*

I submit herewith my report of an audit of the accounts of the town of Winchester for the period from January 1, 1929 to May 16, 1930, made in accordance with the provisions of Chapter 44 of the General Laws. This report is in the form of a report made to me by Mr. Edward H. Fenton, Chief Accountant of this Division.

Very truly yours,

(Signed) THEODORE N. WADDELL
*Director of Accounts*

Mr. Theodore N. Waddell
Director of Accounts
Department of Corporations and Taxation
State House, Boston

*Sir:*

As directed by you I have made an audit of the books and accounts of the town of Winchester for the period from January 1, 1929 to May 16, 1930, and submit the following report thereon:

The financial transactions of the town, as recorded on the books of the several departments receiving or disbursing money for the town or committing bills for collection, were examined and reconciled with books and records in the town accountant's office.

The books and accounts in the town accountant's office were examined and checked in detail The recorded receipts were checked with the reports to the town accountant of payments to the treasurer, and with the treasurer's books. The records of payments were checked with the warrants approved by the selectmen and with the treasurer's books.

The classification book, in which are recorded the receipts and disbursements in classified form, was checked and compared with ledger accounts, and the appropriation accounts were checked with the town clerk's records of appropriations voted by the town. The ledger accounts were analyzed, the postings were checked to the books of original entry, and a balance sheet, which is appended to this report, was prepared showing the financial condition of the town as of May 16, 1930.

The books and records in the accountant's office have been well kept.

The books and accounts of the town treasurer were examined and checked. The recorded receipts were compared with the records in the several departments collecting money for the town and with other sources from which money was paid into the town treasury, while the payments were checked with the warrants authorizing the treasurer to disburse town funds and with the books and records in the town accountant's office.

The cash book was footed throughout for the period covered by the audit, the cash in the office was verified by an actual count, and the bank accounts were reconciled with statements furnished by the banks.

The securities representing the investments of the trust funds in the custody of the town treasurer were personally examined and listed, the income and expenditures being verified.

The guarantee deposits on sidewalk, sewer, and water construction, in the custody of the town treasurer, were personally examined and reconciled.

The books and accounts of the tax collector were examined and checked in detail. The commitments of poll, property, and motor vehicle excise taxes were checked and reconciled with the assessors' warrants, the recorded collections were checked with the commitment books, the abatements were checked with the assessors' records of abatements granted, the payments to the treasurer were verified by a comparison with the treasurer's cash book, and the outstanding accounts were listed and reconciled with the town accountant's books.

The commitments of sewer, betterment and sidewalk assessments, and of departmental accounts receivable, were checked and verified.

The recorded collections were checked, the payments to the treasurer were verified, the abatements were compared with the records of the departments authorizing the abatements, the apportioned assessments were checked and verified, and the outstanding accounts were listed and reconciled with the books and records in the accountant's office. A further verification of the outstanding accounts was secured by mailing notices to a number of persons whose names appeared on the books as owing money to the town, the replies received thereto indicating that the outstanding accounts, as listed, are correct.

The records of tax titles held by the town were examined and checked, being reconciled with the books and records in the accountant's office.

The commitment of water charges was examined and checked. The recorded payments to the treasurer were compared with the treasurer's books. The abatements were verified and the outstanding accounts were listed and reconciled with the accountant's ledger.

The accounts of the tax collector have been kept in an efficient manner, thereby faciliating the work of the audit.

The town clerk's records of dog, sporting, and town licenses issued, as well as of fees collected, were examined and checked the payments to the county, State, and town respectively, being verified.

In addition to the departments and accounts mentioned, the records of receipts by the selectmen for licenses, etc., and of town hall rents, were checked, as well as the accounts of the sealer of weights and measures, the dental clinic, and the school, library, and cemetery departments.

The surety bonds for the faithful performance of the duties of the town treasurer, tax collector, and town clerk were examined and found to be in proper form.

While engaged on the audit, I received the co-operation of the various department officials, for which I wish, on behalf of my assistants and for myself, to express appreciation.
